The Board of Trustees recognizes that the business and other noninstructional operations of the district support the educational program by maximizing and prioritizing resources and providing a safe and healthy environment for students and staff. The Superintendent or designee shall ensure that the district's business and noninstructional operations are efficient and responsive to the needs of students, parents/guardians, staff, and the community.

The district shall maintain high standards of safety in the operation of facilities, equipment, and services. The Superintendent or designee shall establish a risk management program that promotes safety and protects district resources.

In the development of a district budget, the Board and the Superintendent or designee shall establish a calendar that reflects the full budget cycle and a process that satisfies the requirements of law, including opportunities for public input. The Superintendent or designee shall provide fiscal data and prepare a proposed budget document within the budget priorities and parameters set by the Board. The Board shall adopt a budget that is aligned with the district's vision and goals and enables the district to meet its fiscal obligations.

The Board expects sound fiscal management from the administration. The Superintendent or designee shall administer the adopted budget in accordance with Board policies and accepted business practices.

The Board shall monitor financial operations so as to ensure the district's fiscal integrity and accountability to the community. The Superintendent or designee shall complete all required financial reports, facilitate the independent audit process, recommend financial plans for meeting program needs, and keep the Board informed about the district's fiscal and noninstructional operations.

Policy 3100: Budget

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2019

The Board of Trustees recognizes its critical responsibility for adopting a sound budget each fiscal year which is aligned with and reflects the district's vision, goals, priorities, local control and accountability plan (LCAP), and other comprehensive plans. The district budget shall guide decisions and actions throughout the year and shall serve as a tool for monitoring the fiscal health of the district.

The district budget shall show a complete plan and itemized statement of all proposed expenditures and all estimated revenues for the following fiscal year, together with a comparison of revenues and expenditures for the current fiscal year. The budget shall also include the appropriations limit and the total annual appropriations subject to limitation as determined pursuant to Government Code 7900-7914. (Education Code 42122)

Budget Development and Adoption Process

In order to provide guidance in the development of the budget, the Board shall annually establish budget priorities based on identified district needs and goals and on realistic projections of available funds.

The Superintendent or designee shall oversee the preparation of a proposed district budget for approval by the Board and shall involve appropriate staff in the development of budget projections.

The Board shall hold a public hearing on the proposed budget in accordance with Education Code 42103 and 42127. The hearing shall occur at the same meeting as the public hearing on the district's LCAP and the local control funding formula (LCFF) budget overview for parents/guardians. (Education Code 42103, 42127, 52062, 52064.1)

The Board shall adopt the district budget at a public meeting held after the date of the public hearing but on or before July 1 of each year. The Board shall adopt the budget following its adoption of the LCAP, or annual update to the LCAP, and the LCFF budget overview for parents/guardians. The budget shall include the expenditures necessary to implement the LCAP or the annual update to the LCAP. (Education Code 42127, 52062)

The budget that is presented at the public hearing as well as the budget formally adopted by the Board shall adhere to the state's Standardized Account Code Structure as prescribed by the Superintendent of Public Instruction (SPI). (Education Code 42126, 42127)

The Superintendent or designee may supplement this format with additional information as necessary to effectively communicate the budget to the Board, staff, and public.

No later than five days after the Board adopts the district budget or by July 1, whichever occurs first, the Board shall file the adopted district budget with the County Superintendent of Schools. The budget and supporting data shall be maintained and made available for public review. (Education Code 42127)

If the County Superintendent disapproves or conditionally approves the district's budget, the Board shall review and respond to the County Superintendent's recommendations at a regular public meeting on or before October 8. The response shall include any revisions to the adopted budget and any other proposed actions to be taken as a result of those recommendations. (Education Code 42127)

Budget Criteria and Standards

The district budget shall be developed in accordance with state criteria and standards specified in 5 CCR 15440-15450 as they relate to projections of average daily attendance (ADA), enrollment, ratio of ADA to enrollment, LCFF revenue, salaries and benefits, other revenues and expenditures, facilities maintenance, deficit spending, fund balance, and reserves. In addition, the Superintendent or designee shall provide the supplemental information specified in 5 CCR 15451 which addresses the methodology and budget assumptions used, contingent liabilities, use of one-time revenues for ongoing expenditures, use of ongoing revenues for one-time expenditures, contingent revenues, contributions, long-term commitments, unfunded liabilities, status of collective bargaining agreements, the LCAP, and LCAP expenditures. (Education Code 33128, 33129, 42127.01; 5 CCR 15440-15451)

The district budget shall provide for increased or improved services for unduplicated students at least in proportion to the increase in funds apportioned on the basis of the number and concentration of unduplicated students in

accordance with 5 CCR 15496. Unduplicated students are students who are eligible for free or reduced-price meals, English learners, and/or foster youth. (Education Code 42238.07; 5 CCR 15496)

The Board may establish other budget assumptions or parameters which may take into consideration the stability of funding sources, legal requirements and constraints on the use of funds, anticipated increases and/or decreases in the cost of services and supplies, program requirements, and any other factors necessary to ensure that the budget is a realistic plan for district revenues and expenditures.

Fund Balance

The district shall classify fund balances in compliance with Governmental Accounting Standards Board (GASB) Statement 54, as follows:

1. Nonspendable fund balance includes amounts that are not expected to be converted to cash, such as resources that are not in a spendable form (e.g., inventories and prepaids) or that are legally or contractually required to be maintained intact.
2. Restricted fund balance includes amounts constrained to specific purposes by their providers or by law.
3. Committed fund balance includes amounts constrained to specific purposes by the Board.

For this purpose, all commitments of funds shall be approved by a majority vote of the Board. The constraints shall be imposed no later than the end of the reporting period (June 30), although the actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements.

4. Assigned fund balance includes amounts which are intended for a specific purpose but do not meet the criteria to be classified as restricted or committed.

The Board delegates authority to assign funds to the assigned fund balance to the Superintendent and authorizes the assignment of such funds to be made any time prior to the issuance of the financial statements. The Superintendent shall have discretion to further delegate the authority to assign funds.

5. Unassigned fund balance includes amounts that are available for any purpose.

When multiple types of funds are available for an expenditure, the district shall first utilize funds from the restricted fund balance as appropriate, then from the committed fund balance, then from the assigned fund balance, and lastly from the unassigned fund balance.

The Board intends to maintain a minimum assigned and unassigned fund balance in an amount the Board deems sufficient to maintain fiscal solvency and stability and to protect the district against unforeseen circumstances.

If the assigned and unassigned fund balance falls below the level set by the Board due to an emergency situation, unexpected expenditures, or revenue shortfalls, the Board shall develop a plan to recover the fund balance which may include dedicating new unrestricted revenues, reducing expenditures, and/or increasing revenues or pursuing other funding sources.

Reserve Balance

The district budget shall include a minimum reserve balance for economic uncertainties that is consistent with the percentage or amount specified in 5 CCR 15450.

In any year following the fiscal year in which the district is notified by the SPI that the amount of monies in the state Public School System Stabilization Account equals or exceeds three percent of the combined total of general fund revenues appropriated for school districts and allocated local proceeds of taxes, the district budget shall not contain a combined assigned or unassigned ending general fund balance that is in excess of 10 percent of these funds, unless the requirement is waived in accordance with Education Code 42127.01. (Education Code 42127.01)

Long-Term Financial Obligations

The district's current-year budget and multiyear projections shall include adequate provisions for addressing the district's long-term financial obligations, including, but not limited to, long-term obligations resulting from collective

bargaining agreements, financing of facilities projects, unfunded or future liability for retiree benefits, and accrued workers' compensation claims.

The Board may approve a plan for meeting the district's long-term obligations to fund contributions to the California Public Employees' Retirement System (CalPERS) which, to the extent possible, minimizes significant increases in annual general fund expenditures towards pension obligations. The plan may include prefunding required pension contributions through the California Employers' Pension Prefunding Trust Program pursuant to Government Code 21710-21716.

The Superintendent or designee shall annually present a report to the Board on the estimated accrued but unfunded cost of OPEBs. As a separate agenda item at the same meeting, the Board shall disclose whether or not it will reserve a sufficient amount of money in its budget to fund the present value of the benefits of existing retirees and/or the future cost of employees who are eligible for benefits in the current fiscal year. (Education Code 42140)

Budget Amendments

No later than 45 days after the Governor signs the annual Budget Act, the Superintendent or designee shall make available for public review any revisions in budgeted revenues and expenditures which occur as a result of the funding made available by that Budget Act. (Education Code 42127)

Whenever revenues and expenditures change significantly throughout the year, the Superintendent or designee shall recommend budget amendments to ensure accurate projections of the district's net ending balance. When final figures for the prior-year budget are available, this information shall be used as soon as possible to update the current-year budget's beginning balance and projected revenues and expenditures.

In addition, budget amendments shall be submitted for Board approval as necessary when collective bargaining agreements are accepted, district income declines, increased revenues or unanticipated savings are made available to the district, program proposals are significantly different from those approved during budget adoption, interfund transfers are needed to meet actual program expenditures, and/or other significant changes occur that impact budget projections.

Policy 3110: Transfer Of Funds

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

The Board of Trustees recognizes its responsibility to monitor the district's fiscal practices to ensure accountability regarding the expenditure of public funds and compliance with legal requirements.

The total amount budgeted by the district for each major classification of expenditures, as listed in the California Department of Education's budget forms, shall be the maximum amount which the district may expend for that classification for the school year. (Education Code 42600)

However, when it is in the best interest of the district, the Board may:

1. At any time, adopt a written resolution providing for transfers from the designated fund balance or the unappropriated fund balance to any expenditure classification or between classifications. The resolution shall be filed with the County Superintendent of Schools and the County Auditor. (Education Code 42600)
2. Direct the temporary transfer of monies held in any district fund or account to another fund or account as necessary for the payment of obligations. Such borrowing shall occur only when the fund or account receiving the money will earn sufficient income during the current fiscal year to repay the amount transferred. No more than 75 percent of the maximum amount held in any fund or account during the current fiscal year may be transferred. Amounts transferred shall be repaid in the same fiscal year, or in the following fiscal year if the transfer takes place within the final 120 calendar days of a fiscal year. (Education Code 42603)

For the 2020-21 and 2021-22 fiscal years only, if the state defers any payments owed to districts, the Board may direct the temporary transfer of up to 85 percent of the maximum amount held in any fund or account during the current fiscal year for the payment of obligations. Such borrowing shall occur only when the fund or account receiving the money will earn sufficient income during the current fiscal year to repay the amount transferred. Prior to exercising this authority, the Board shall hold a public hearing and adopt a resolution authorizing such transfer. (Education Code 42603.1)

3. At the close of a school year, request that the County Superintendent make transfers between the designated fund balance or the unappropriated fund balance and any expenditure classification(s), or balance any expenditure classifications of the district budget as necessary for the payment of obligations incurred during that school year. (Education Code 42601)
4. If any special reserve funds that are maintained for capital outlay or other purposes pursuant to Education Code 42842 are not actually encumbered for ongoing expenses, transfer those monies into the general fund for the general operating purposes of the district. If any monies remain in the special reserve fund at the conclusion of a project, the Board may submit a written request to the County Superintendent, Auditor, and Treasurer to discontinue the special reserve fund and transfer those monies to the district's general fund. (Education Code 42841-42843)
5. Transfer monies between other funds or accounts when authorized by law.

Policy 3220.1: Lottery Funds

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 07/01/2010

The Board of Trustees intends to use California State Lottery funds for supplemental and nonrecurring expenditures in support of educational programs and activities. In recognition of the yearly fluctuations of lottery funds received by the district, the Board shall not commit lottery funds for any purpose until they have been received.

The Board shall establish funding priorities and approve all allocations in accordance with law.

Lottery funds allocated by the state for the purchase of instructional materials shall be expended on instructional materials as defined in Education Code 60010. Lottery funds shall not be used for the acquisition of real property, construction of school facilities, financing of research, or any other noninstructional purpose. (Government Code 8880.4, 8880.5)

For the receipt and expenditure of lottery funds, the Superintendent or designee shall establish a separate account that shall be clearly identified as a lottery education account. (Government Code 8880.5)

The Board encourages staff and community members to participate in determining how lottery funds will be used. The Superintendent or designee may solicit input through district advisory groups, school site councils, and/or individual students, staff, parents/guardians, and community members.

Policy 3230: Federal Grant Funds

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

The Board of Trustees recognizes the district's responsibility to maintain fiscal integrity and transparency in the use of all funds awarded through federal grants. The district shall comply with all requirements detailed in any grant agreement with an awarding agency and with the federal Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards specified in 2 CFR 200.0-200.521 and any stricter state laws and district policy.

Any goods or services purchased with federal funds shall be reasonable in cost and necessary for the proper and efficient performance or administration of the program.

The Superintendent or designee shall ensure that the district's financial management systems and procedures provide for the following: (2 CFR 200.302)

1. Identification in district accounts of each federal award received and expended and the federal program under which it was received
2. Accurate, current, and complete disclosure of the financial results of each federal award or program in accordance with the reporting requirements of 2 CFR 200.328 and 200.329
3. Records and supporting documentation that adequately identify the source and application of funds for federally funded activities, including information pertaining to federal awards, authorizations, financial obligations, unobligated balances, assets, expenditures, income, and interest
4. Effective control over and accountability for all funds, property, and other assets and assurance that all assets are used solely for authorized purposes
5. Comparison of actual expenditures with budgeted amounts for each federal award
6. Written procedures to implement provisions governing payments as specified in 2 CFR 200.305
7. Written procedures for determining the allowability of costs in accordance with 2 CFR 200.400-200.475 and the terms and conditions of the federal grant award

The Superintendent or designee shall develop and implement appropriate internal control processes to reasonably assure that transactions are properly executed, recorded, and accounted for so that the district can prepare reliable financial statements and federal reports, maintain accountability over assets, and demonstrate compliance with federal laws, regulations, and conditions of the federal award. (2 CFR 200.61, 200.62, 200.303)

Equipment purchased with federal funds shall be properly inventoried and adequately maintained to safeguard against loss, damage, or theft of the property.

All staff involved in the administration or implementation of programs and activities supported by federal funds shall receive information and training on the allowable use of federal funds, purchasing procedures, and reporting processes commensurate with their duties.

The district shall submit financial and performance reports to the awarding agency in accordance with the schedule and indicators required for that federal grant by law and the awarding agency. As required, such reports may include a comparison of actual accomplishments to the objectives of the federal award, the relationship between financial data and performance accomplishments, the reasons that established goals were not met if applicable, cost information to demonstrate cost-effective practices, analysis and explanation of any cost overruns or high unit costs, and other relevant information. The final performance report shall be submitted no later than 120 calendar days after the ending date of the grant. (2 CFR 200.301, 200.328, 200.329)

Regulation 3230: Federal Grant Funds

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

To ensure the lawful expenditure of any federal formula or discretionary grant funds awarded to the district, the Superintendent or designee shall comply with the requirements of the Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance"), as contained in 2 CFR 200.0-200.521 and Appendices I-XII.

Allowable Costs

Prior to obligating or spending any federal grant funds, the Superintendent or designee shall determine whether a proposed purchase is an allowable expenditure in accordance with 2 CFR 200.400-200.475 and the terms and conditions of the award. The Superintendent or designee shall also determine whether the expense is a direct or indirect cost as defined in 2 CFR 200.413 and 200.414 and, if the purchase will benefit other programs not included in the grant award, the appropriate share to be allocated to the federal grant.

The Superintendent or designee shall review and approve all transactions involving federal grant funds and shall ensure the proper coding of expenditures consistent with the California School Accounting Manual.

Period of Performance

All obligations of federal funds shall occur on or between the beginning and ending dates of the grant project and shall be paid no later than 120 calendar days after the end of the funding period, unless specifically authorized by the grant award to be carried over beyond the initial term of the grant. (2 CFR 200.77, 200.308, 200.309, 200.344)

Procurement

When procuring goods and services with a federal grant, the Superintendent or designee shall comply with the standards contained in 2 CFR 200.317-200.327 and Appendix II of Part 200, and with any applicable state bidding or procurement law or district policy that is more restrictive.

As appropriate to encourage greater economy and efficiency, the Superintendent or designee shall avoid acquisition of unnecessary or duplicative items, give consideration to consolidating or breaking out procurements, analyze lease versus purchase alternatives, consider entering into an interagency agreement for procurement of common or shared goods and services, and/or use federal excess or surplus property. (2 CFR 200.318)

The procurement of goods or services with federal funds shall be conducted in a manner that provides full and open competition in accordance with state laws and district regulations and the following requirements:

1. Any purchase of supplies or services that does not exceed the "micro-purchase" threshold established by the district in accordance with 48 CFR 2.101 may be awarded without soliciting competitive quotes, provided that the district considers the price to be reasonable and maintains written evidence of this reasonableness in the record of all micro-purchases. (2 CFR 200.67, 200.320)
2. For any purchase that exceeds the micro-purchase threshold but is less than the bid limit required by Public Contract Code 20111, the Superintendent or designee shall utilize "small-purchase" procedures that include obtaining price or rate quotes from an adequate number of qualified sources. (2 CFR 200.320)
3. Contracts for goods or services over the bid limits required by Public Contract Code 20111 shall be awarded pursuant to California law and AR 3311 - Bids, unless exempt from bidding under the law.
4. If a purchase is exempt from bidding and the district's solicitation is by a request for proposals, the award may be made by either a fixed-price or cost-reimbursement type contract awarded to the entity whose proposal is most advantageous to the program, with price and other factors considered. (2 CFR 200.320)
5. Procurement by noncompetitive proposals (sole sourcing) may be used only when the item is available exclusively from a single source, the need or emergency will not permit a delay resulting from competitive solicitation, the awarding agency expressly authorizes sole sourcing in response to the district's request, and/or competition is determined inadequate after solicitation of a number of sources. (2 CFR 200.320)

6. Time and materials type contracts may be used only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract for which the cost is the sum of the actual cost of materials and direct labor hours charged at fixed hourly rates that reflect wages, general administrative expenses, and profit. (2 CFR 200.318)

For any purchase of \$25,000 or more, the Superintendent or designee shall verify that any vendor which is used to procure goods or services is not excluded or disqualified by the federal government. (2 CFR 180.220, 200.214)

All solicitations shall incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description shall avoid detailed product specifications to the extent possible, but may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. When it is impractical or not economical to make a clear and accurate description of the technical requirements, a brand name or equivalent description may be used to define the performance or other salient requirements of procurement, clearly stating the specific features of the named brand which must be met by offers. In addition, every solicitation shall identify all requirements which the offer must fulfill and any other factors to be used in evaluating bids or proposals. (2 CFR 200.319)

The Superintendent or designee shall maintain sufficient records to document the procurement, including, but not limited to, the rationale for the method of procurement, selection of the contract type, contractor selection or rejection, and the basis for the contract price. (2 CFR 200.318)

The Superintendent or designee shall ensure that all contracts for purchases using federal grant funds contain the applicable contract provisions described in Appendix II to Part 200 - Contract Provisions for Non-Federal Entity Contracts Under Federal Awards. (2 CFR 200.327)

Capital Expenditures

The Superintendent or designee shall obtain prior written approval from the awarding agency before using federal funds to make capital expenditures, including the acquisition of land, facilities, equipment, and intellectual property and expenditures to make additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations, or alterations to capital assets that materially increase their value or useful life. (2 CFR 200.313, 200.439)

Conflict of Interest

Board of Trustees members, district employees, and other district representatives shall not participate in the selection, award, or administration of a contract supported by federal funds if they have a real or apparent conflict of interest, such as when they or a member of their immediate family, their partner, or an organization which employs or is about to employ any of them has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. Such persons are prohibited from soliciting or accepting gratuities, favors, or anything of monetary value from contractors or subcontractors unless the gift is an unsolicited item of nominal value. (2 CFR 200.318)

Employees engaged in the selection, award, and administration of contracts shall also comply with BB 9270 - Conflict of Interest.

Persons involved in the selection, award, or administration of a contract supported by federal funds shall be subject to discipline for any violation of conflict of interest standards. (2 CFR 200.318)

Cash Management

The Superintendent or designee shall ensure the district's compliance with 2 CFR 200.305 pertaining to payments and cash management, including compliance with applicable methods and procedures that minimize the time elapsing between the transfer of funds to the district and the district's disbursement of funds. (2 CFR 200.305)

When authorized by law, the district may receive advance payments of federal grant funds, limited to the minimum amounts needed and timed in accordance with the actual immediate cash requirements of the district for carrying out the purpose of the program or project.

Except under specified conditions, the district shall maintain the advance payments in an interest-bearing account. The district shall remit interest earned on the advanced payment to the awarding agency on an annual basis, but may retain interest amounts specified in 2 CFR 200.305 for administrative expenses. (2 CFR 200.305)

When required by the awarding agency, the district shall instead submit a request for reimbursement of actual expenses incurred. The district may also request reimbursement as an alternative to receiving advance payments. (2 CFR 200.305)

The Superintendent or designee shall maintain source documentation supporting the expenditure of federal funds, such as invoices, time sheets, payroll stubs, or other appropriate documentation.

Personnel

All district employees who are paid in full or in part with federal funds shall document the amount of time they spend on grant activities. Such records shall be incorporated into the official records of the district and shall be subject to a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated in accordance with 2 CFR 200.430. (2 CFR 200.430)

Policy 3270: Sale And Disposal Of Books, Equipment And Supplies

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 09/01/2016

The Board of Trustees recognizes its fiscal responsibility to maximize the use of district equipment, supplies, instructional materials, and other personal property while providing up-to-date resources that facilitate student learning and effective district operations. When the Board, upon recommendation of the Superintendent or designee, declares any district-owned personal property unusable, obsolete, or no longer needed, the Board shall determine the estimated value of the property and shall decide whether the property will be donated, sold, or otherwise disposed of as prescribed by law and administrative regulation.

The Board shall approve the price and terms of any sale or lease of personal property of the district.

If the Board members who are in attendance at a meeting unanimously agree that the property, whether one or more items, does not exceed \$2,500 in value, the property may be sold without advertising for bids. (Education Code 17546)

If the Board members who are in attendance at a meeting unanimously find that the value of the property is insufficient to defray the costs of arranging a sale, the property may be donated to a charitable organization deemed appropriate by the Board or may be disposed of in the local public dump. (Education Code 17546)

Instructional materials shall be considered obsolete or unusable by the district if they have been replaced by more recent editions or new materials selected by the Board, are not aligned with the district's academic standards or course of study, and have no foreseeable value in other instructional areas. Such materials may be sold or donated if they continue to serve educational purposes that would benefit others outside the district. Instructional materials are not appropriate for sale or donation if they meet any of the following criteria:

2. Contain demeaning, stereotyping, or patronizing references to any group of persons protected against discrimination by law or Board policy

Equipment/Supplies Acquired with Federal Funds

When the district has a need to replace equipment originally purchased with funds from a federal grant or subgrant, it may, subject to the approval of the agency that awarded the grant, trade in the original equipment or sell the property and use the proceeds to offset the cost of the replacement property. (2 CFR 200.313)

When any original or replacement equipment or supplies acquired under a federal grant or subgrant are no longer needed for the original project or program or for other federally supported activities, the district may retain or sell such items or, if the item has a current fair market value of less than \$5,000, may otherwise dispose of the item in a manner approved by the Board. Whenever the district sells equipment or supplies that have a current fair market value of \$5,000 or more, it shall provide an amount to the federal agency equal to the agency's share of the current market value of the equipment or the proceeds from the sale of the equipment or supplies. (2 CFR 200.313, 200.314)

In the event that the district is provided equipment that is federally owned, the district shall request disposition instructions from the federal agency when it no longer needs the equipment. (2 CFR 200.313)

Other Personal Property

The district may sell other surplus or obsolete district-owned personal property through any of the following methods:

1. The Superintendent or designee may advertise for bids by posting a notice in at least three public places in the district for at least two weeks, or by publishing a notice at least once a week for at least two weeks in a

newspaper having a general circulation in the district and, if possible, publishing within the district. The district shall sell the property to the highest responsible bidder or shall reject all bids. (Education Code 17545, 17548)

Policy 3280: Sale Or Lease Of District-Owned Real Property

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 10/01/2020

The Board of Trustees believes that district facilities and resources should be utilized in an economical and practical manner. The Superintendent or designee shall periodically study the current and projected use of all district facilities to ensure the efficient utilization of space for the effective delivery of instruction.

Prior to the sale or lease of any surplus real property, the Board shall appoint a district advisory committee to advise the Board regarding the use or disposition of schools or school building space which is not needed for school purposes. The Board may elect not to appoint a district advisory committee for any of the following: (Education Code 17388, 17391)

1. A rental of property for a period of time not exceeding 30 days
2. A lease or rental of surplus property to a private educational institution for the purpose of offering summer school
3. A sale, lease, or rental of surplus property to be used for teacher or other employee housing
4. Until July 1, 2024, a sale or lease of surplus property that has not previously operated, or was not constructed to be operated, as an early childhood education facility or a school for elementary or secondary instruction

In addition, to ensure that the proposed disposition of the property conforms with any general plan adopted by the local planning agency that affects or includes the area where the surplus property is located, the Board shall submit a report to the local planning agency describing the location of the surplus property and the purpose and extent of the proposed sale or lease. (Government Code 65402)

The Board shall determine whether the sale or lease of the surplus property is subject to review under the California Environmental Quality Act. (Public Resources Code 21000-21177; 14 CCR 15061-15062)

The Board may meet in closed session with its real property negotiator prior to the sale or lease of real property by the district in order to grant its negotiator authority regarding the minimum price or rent and terms of the sale or lease. (Government Code 54956.8)

When selling or leasing district real property, the Board shall comply with applicable procedures and give priority to specified public agencies as required by law. (Education Code 17230, 17464, 17485-17499; Government Code 54222)

Resolution of Intention to Sell or Lease

Before ordering the sale or lease of any real property, the Board shall adopt a resolution by a two-thirds vote of all of its members at a regularly scheduled open meeting. The resolution shall describe the property proposed to be sold or leased in such a manner as to identify it, specify the minimum price or rent, describe the terms upon which it will be sold or leased, and specify the commission or rate, if any, which the Board will pay to a licensed real estate broker out of the minimum price or rent. The resolution shall fix a time, not less than three weeks thereafter, for a public meeting, held at the Board's regular meeting place, at which sealed proposals to purchase or lease will be received and considered. (Education Code 17466)

The Superintendent or designee shall provide notice of the adoption of the resolution and of the time and place of the meeting that will be held to consider bids by posting copies of the resolution, signed by the Board, in three public places not less than 15 days before the date of the meeting. In addition, the notice shall be published at least once a week for three successive weeks before the meeting, in a newspaper of general circulation published in the county in which the district is located, if such a newspaper exists. (Education Code 17469)

At least 60 days prior to the public meeting, the Superintendent or designee shall take reasonable steps to provide written notification of the public meeting, by certified mail, to the former owner from whom the district acquired the property. (Education Code 17470)

Acceptance/Rejection of Bids

At the public meeting specified in the resolution of intention to sell or lease property, the Board shall open, examine, and declare all sealed bids. Before accepting a written proposal, the Board shall call for oral bids in accordance with law. (Education Code 17472, 17473)

The Board may reject any and all bids, either written or oral, and withdraw the properties from sale when the Board determines that rejection is in the best public interest. If no proposals are submitted or the submitted proposals do not conform to all the terms and conditions specified in the resolution of intention to lease, the Board may lease the property in accordance with Education Code 17477. (Education Code 17476, 17477)

Of the proposals submitted by responsible bidders which conform to all terms and conditions specified in the resolution of intention to sell or lease, the Board shall finally accept the highest bid after deducting the commission, if any, to be paid to a licensed real estate broker, unless the Board accepts a higher oral bid or rejects all bids. (Education Code 17472)

The final acceptance of the bid may be made either at the same meeting specified in the resolution or at any adjourned/continued meeting held within 10 days. Upon acceptance of the bid, the Board may adopt a resolution of acceptance that directs the Board president, or any other Board member, to execute the deed or lease and to deliver the document upon performance and compliance by the successful bidder of all of the terms and conditions of the contract. (Education Code 17475-17478)

Use of Proceeds

The Superintendent or designee shall ensure that the proceeds from the sale or lease with an option to purchase of surplus district property are used for one-time expenditures and not for ongoing expenditures such as salaries and general operating expenses. (Education Code 17462; 2 CCR 1700)

Proceeds from a sale of surplus district property shall generally be used for capital outlay or maintenance costs that the Board determines will not recur within a five-year period. Proceeds from a lease of district property with an option to purchase may be deposited into a restricted fund for the routine repair of district facilities, as defined by the SAB, for up to a five-year period. (Education Code 17462)

However, if the Board and SAB determine that the district has no anticipated need for additional sites or building construction for the next 10 years and no major deferred maintenance requirements, the proceeds from the sale or lease with an option to purchase may be deposited in a special reserve fund for the future maintenance and renovation of school sites or in the district's general fund. (Education Code 17462)

In addition, until July 1, 2024, if district surplus property was purchased entirely with local funds, the proceeds from the sale or lease of the property, together with any personal property located on the property, may be deposited into the general fund of the district and may be used for any one-time general fund purpose. Before exercising this authority, the Board shall: (Education Code 17463.7)

1. Submit to SAB documents certifying that the sale of real property does not violate the provisions of a local bond act and the real property is not suitable to meet projected school construction needs for the next 10 years
2. At a public meeting, adopt a plan for expending one-time resources from the sale or lease of the property which identifies the source and intended use of the surplus property proceeds and describes the reasons that the expenditure will not result in ongoing fiscal obligations for the district

Whenever the district sells real property that was purchased, improved, or modernized with funds that were received from a state school facilities funding program within the previous 10 years, the district shall notify OPSC within 90 calendar days of the sale of the property if the proceeds from the sale are not used for capital outlay and the property is not sold to a charter school, another school district, a county office of education, or an agency that will use the property exclusively for the delivery of child care and development services. If SAB subsequently makes a finding that the sale is subject to Education Code 17462.3, the district shall return the funds to the SAB within 90 calendar days of the finding. (2 CCR 1702)

Original Adopted Date: Pending | **Last Revised Date:** 10/01/2018

The Board of Trustees may accept any gift, grant, or bequest of money, property, or service to the district from any individual, organization, foundation, or public or private agency that desires to support the district's educational program. While greatly appreciating suitable donations, the Board shall reject any gift which may directly or indirectly impair its authority to make decisions in the best interest of district students or its ability or commitment to provide equitable educational opportunities.

Before accepting any gift, grant, or bequest, the Board shall carefully consider any conditions or restrictions imposed by the donor to ensure their consistency with the district's vision, philosophy, and operations. If the Board believes the district will be unable to fully satisfy the donor's conditions, the gift shall not be accepted.

In addition, the Board shall ensure that acceptance of the gift, grant, or bequest does not:

1. Involve creation of a program which the Board would be unable to sustain when the donation is exhausted
2. Entail undesirable or excessive costs
3. Promote the use of violence, drugs, tobacco, or alcohol
4. Advertise or endorse the use of non-nutritious food or beverages during the school day

When any gift of money received by the district is not immediately used, it shall be placed in the county treasury in accordance with law. (Education Code 41030-41031)

The Superintendent or designee shall annually provide a report to the Board indicating the gifts, grants, and/or bequests received on behalf of the district in the preceding fiscal year. The report shall include a statement of account and expenditure of all gifts of money and an inventory of all gifts of physical assets.

The Board may enter into an agreement or arrangement with an outside entity for the sponsorship of an educational, athletic, or other program or activity. When appropriate, the agreement may allow the outside entity to advertise or promote its business, product, or service in district publications or on district property or web sites.

Every sponsorship agreement shall be in writing and shall be approved by the Board. The Board shall ensure that the district's relationship and arrangement with the sponsor are consistent with the district's mission, values, and goals. Any advertising or promotional message, image, or other depiction to be used by the sponsor shall meet the standards set for commercial advertising on district property and in district-sponsored publications in accordance with BP 1325 - Advertising and Promotion.

Each sponsorship agreement shall contain statements including, but not limited to:

1. The purpose of the relationship with the sponsor, details of the benefits to the district, and how the benefits will be distributed
2. The duration of the agreement and the roles, expectations, rights, and responsibilities of the district and the sponsor, including whether and to what extent the sponsor is allowed to advertise or promote its products

and/or services

3. The authority of the Board to retain exclusive right over the use of the district's name, logo, and other proprietary information and the requirement that the sponsor obtain prior approval of the Board before using such information
4. The prohibition against the collection or distribution of students' personal information except as allowed by law
5. The authority of the Board to terminate the agreement without any penalty or sanction to the district if the sponsor's message, business, or product becomes inconsistent with the district's vision, mission, or goals or the sponsor engages in any prohibited activity

Online Fundraising

Any person or entity who wishes to conduct an online fundraising campaign, including a crowdfunding campaign, for the benefit of the district, a school, or a classroom shall submit a written request for prior approval to the Superintendent or designee. Approval of requests shall take into consideration compatibility with the district's vision and goals, core beliefs, instructional priorities, and infrastructure; the manner in which donations are collected and distributed; equity of the use of funds; and any other factors deemed relevant or appropriate by the district.

Any person or entity approved to conduct an online fundraising campaign shall comply with relevant district policies and procedures, including ensuring financial transparency in describing the purpose and use of the funds and protecting student privacy as applicable. Such person or entity shall specify that the district, rather than a staff member, classroom, or school, will own the funded resources.

Funds raised by an online fundraising campaign and donated to the district shall be subject to the same terms, criteria for acceptance, and accountability measures as any other donation as specified in this policy.

Appreciation

The Board may show appreciation for any donation to the district in any manner it deems appropriate. Such appreciation may take the form of letters of recognition or Board resolutions; plaques, commendations, or awards; planting of commemorative trees or gardens; or naming or renaming of buildings, grounds, or facilities. Conferment of any such honor shall be in accordance with applicable Board policy.

Policy 3300: Expenditures And Purchases

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 07/01/2006

The Board of Trustees recognizes its fiduciary responsibility to oversee the prudent expenditure of district funds. In order to best serve district interests, the Superintendent or designee shall develop and maintain effective purchasing procedures that are consistent with sound financial controls and that ensure the district receives maximum value for items purchased. He/she shall ensure that records of expenditures and purchases are maintained in accordance with law.

Expending Authority

The Superintendent or designee may purchase supplies, materials, apparatus, equipment, and services up to the amounts specified in Public Contract Code 20111, beyond which a competitive bidding process is required. The Board shall not recognize obligations incurred contrary to Board policy and administrative regulations.

The Board shall review all transactions entered into by the Superintendent or designee on behalf of the Board every 60 days. (Education Code 17605)

The Superintendent or designee may authorize an expenditure which exceeds the budget classification allowance against which the expenditure is the proper charge only if an amount sufficient to cover the purchase is available in the budget for transfer by the Board.

District funds shall not be expended for the purchase of alcoholic beverages. (Education Code 32435)

Purchasing Procedures

Insofar as possible, goods and services purchased shall meet the needs of the person or department ordering them at the lowest price consistent with standard purchasing practices. Maintenance costs, replacement costs, and trade-in values shall be considered when determining the most economical purchase price.

All purchases shall be made by formal contract or purchase order or shall be accompanied by a receipt. In order to eliminate the processing of numerous small purchase orders, the Superintendent or designee may create a "blanket" or "open" purchase order system for the purchase of minor items as needed from a vendor. He/she shall ensure that the "open" purchase order system details a maximum purchase amount, the types of items that can be purchased under this order, the individuals authorized to approve purchases, and the expiration date of the "open" order.

Policy 3311: Bids

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 12/01/2016

The Board of Trustees is committed to promoting public accountability and ensuring prudent use of public funds. When leasing, purchasing, or contracting for equipment, materials, supplies, or services for the district, including when contracting for public projects involving district facilities, the Board shall explore lawful opportunities to obtain the greatest possible value for its expenditure of public funds. When required by law, or if the Board determines that it is in the best interest of the district, such contracts shall be made using competitive bidding.

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading legal requirements for competitive bidding. (Public Contract Code 20116)

The Superintendent or designee shall establish comprehensive bidding procedures for the district in accordance with law. The procedures shall include a process for advertising bids, instructions and timelines for submitting and opening bids, and other relevant requirements.

For award of contracts which, by law or Board policy, require prequalification, the procedures shall identify a uniform system for rating bidders on the basis of a completed questionnaire and financial statements.

When calling for bids, the Superintendent or designee shall ensure that the bid specifications clearly describe in appropriate detail the quality, delivery, and service required and include all information which the district knows, or has in its possession, that is relevant to the work to be performed or that may impact the cost of performing the work.

Except as authorized by law, contracts shall be let to the lowest responsible bidder who shall give such security as the Board requires, or else all bids shall be rejected. (Public Contract Code 20111)

When the Board has determined that it is in the best interest of the district, the district may piggyback onto the contract of another public agency or corporation to lease or purchase any personal property to the extent authorized by law. (Public Contract Code 20118)

Regulation 3311: Bids

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 12/01/2016

Advertised/Competitive Bids

The district shall advertise for any of the following: (Public Contract Code 20111)

1. A public project contract that involves an expenditure of \$15,000 or more, including a contract for construction, reconstruction, erection, alteration, renovation, improvement, painting, repainting, demolition, or repair work involving a district owned, leased, or operated facility
2. A contract that exceeds the amount specified in law, as annually adjusted by the Superintendent of Public Instruction, for any of the following:
 - a. The purchase of equipment, materials, or supplies to be furnished, sold, or leased to the district
 - b. Services, not including construction services or special services and advice in accounting, financial, legal, or administrative matters
 - c. Repairs that are not a public project, including maintenance

Maintenance means routine, recurring, and usual work for preserving, protecting, and keeping a district facility operating in a safe, efficient, and continually usable condition for the intended purpose for which it was designed, improved, constructed, altered, or repaired. Maintenance includes, but is not limited to, carpentry, electrical, plumbing, glazing, and other craft work designed to preserve the facility, as well as repairs, cleaning, and other operations on machinery and other permanently attached equipment. Maintenance does not include painting, repainting, or decorating other than touchup, or among other types of work, janitorial or custodial services and protection provided by security forces. (Public Contract Code 20115)

Instructions and Procedures for Advertised Bids

The Superintendent or designee shall call for bids by placing a notice at least once a week for two weeks in a local newspaper of general circulation published in the district, or if no such newspaper exists, then in some newspaper of general circulation that is circulated in the county. The Superintendent or designee also may post the notice on the district's web site or through an electronic portal. The notice shall state the work to be done or materials or supplies to be furnished and the time and place and web site where bids will be opened. (Public Contract Code 20112)

The notice shall contain the time, date, and location of any mandatory prebid conference, site visit, or meeting and details regarding when and where project documents, including the final plan and specifications, are available. Any such mandatory visit or meeting shall occur not less than five calendar days after the publication of the initial notice. (Public Contract Code 6610)

Bid instructions and specifications shall include the following requirements and information:

1. All bidders shall certify in writing the minimum, if not exact, percentage of post-consumer materials in products, materials, goods, or supplies offered or sold. (Public Contract Code 22152)
2. All bids for construction work shall be presented under sealed cover. The district may accept a bid that has been submitted electronically or on paper. (Public Contract Code 20111, 20112)

The bid shall be accompanied by a form of bidder's security, including either cash, a cashier's check payable to the district, a certified check made payable to the district, or a bidder's bond executed by an admitted surety insurer and made payable to the district. The security of unsuccessful bidders shall be returned in a reasonable period of time, but in no event later than 60 days after the bid is awarded. (Public Contract Code 20111, 20112)

3. When a standardized proposal form is provided by the district, bids not presented on the standard form shall be disregarded. (Public Contract Code 20111.5)
4. Bids shall not be accepted after the advertised bid opening time, regardless of whether the bids are actually

opened at that time. (Public Contract Code 20112)

5. When two or more identical lowest or highest bids are received, the Board of Trustees may determine by lot which bid shall be accepted. (Public Contract Code 20117)
6. If the district requires that the bid include prices for items that may be added to or deducted from the scope of work in the contract, the bid solicitation shall specify which one of the following methods will be used to determine the lowest bid. In the absence of such a specification, only the method provided in item #6a below shall be used. (Public Contract Code 20103.8)
 - a. The lowest bid shall be the lowest total of the bid prices on the base contract without consideration of the prices on the additive or deductive items.
 - b. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that were specifically identified in the bid solicitation as being used for the purpose of determining the lowest bid price.
 - c. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that, when taken in order from a specifically identified list of those items in the solicitation, and added to or subtracted from the base contract, are less than or equal to a funding amount publicly disclosed by the district before the first bid is opened.

The lowest bid shall be determined in a manner that prevents any information that would identify any of the bidders or proposed subcontractors or suppliers from being revealed to the district before the ranking of all bidders from lowest to highest has been determined. (Public Contract Code 20103.8)

7. In determining the lowest bid, the district shall consider only responsive bids that conform to bid specifications and are submitted by responsible bidders who have demonstrated trustworthiness, quality, fitness, capacity, and experience to satisfactorily perform the public works contract.
8. After being opened, all submitted bids become public records pursuant to Government Code 6252 and shall be made available for public review pursuant to law, Board policy, and administrative regulation.

Prequalification Procedure

When required by law or the Board, the Superintendent or designee shall establish a uniform system for rating bidders on the basis of completed questionnaires and financial statements in order to determine the size of contracts on which each bidder is qualified to bid. For this purpose, the Superintendent or designee shall furnish prospective bidders a standardized prequalification questionnaire and financial record which, when completed, shall indicate a bidder's statement of financial ability and experience in performing public works. The bidder's information shall be verified under oath in the manner in which civil law pleadings are verified. The questionnaires and financial statements shall not be public records and shall not be open to public inspection. (Code of Civil Procedure 446; Public Contract Code 20111.5, 20111.6)

When any public project involves an expenditure of \$1,000,000 or more and is funded or reimbursed wholly or partly by the School Facilities Program funds or other future state school bond, the district shall prequalify prospective bidders either quarterly or annually. The prequalification shall be valid for one year and the following requirements shall apply: (Public Contract Code 20111.6)

1. Prospective bidders, including, but not limited to, prime, general engineering, and general building contractors and electrical, mechanical, and plumbing subcontractors, as defined in Public Contract Code 4113 or Business and Professions Code 7056 or 7057, as applicable, shall submit a standardized questionnaire and financial statement 10 or more business days, as determined by the district, before the date fixed for the public opening of sealed bids.
2. Prospective bidders shall be prequalified by the district five or more business days, as determined by the district, before the date fixed for the public opening of sealed bids.

If the project includes electrical, mechanical, or plumbing components that will be performed by electrical, mechanical, or plumbing contractors, the Superintendent or designee shall make available to all bidders a list of prequalified general contractors and electrical, mechanical, and plumbing subcontractors five or more business days,

as determined by the district, before the date fixed for the public opening of sealed bids.

For all other contracts requiring competitive bidding, the district may establish a procedure for prequalifying bidders on a quarterly basis and may authorize that prequalification be considered valid for up to one calendar year following the date of the initial prequalification. Prospective bidders for such contracts shall submit the questionnaire and financial statement at least five days before the date fixed for public opening of sealed bids and shall be prequalified by the district at least one day before the fixed bid-opening date. (Public Contract Code 20111.5)

Award of Contract

The district shall award each contract to the lowest responsible bidder, except in the following circumstances:

1. When the contract is for the procurement and/or maintenance of electronic data processing systems and supporting software, in which case the Board may contract with any one of the three lowest responsible bidders (Public Contract Code 20118.1)
2. When the contract is for any transportation service which involves an expenditure of more than \$10,000 and which will be made with any person or corporation other than a common carrier, municipally owned transit system, or a parent/guardian of a student who is to be transported, in which case the Board may contract with other than the lowest bidder (Education Code 39802)
3. When the contract is one for which the Board has established goals and requirements relating to participation of disabled veteran or small business enterprises in accordance with Public Contract Code 2000-2002, in which case the Board may contract with the lowest responsible bidder who submits a responsive bid and complies or makes a good faith effort to comply with the goals and requirements (Public Contract Code 2000-2002)
4. When procuring a lease-leaseback contract, in which case the Board shall award the contract based on objective criteria for determining the best combination of price and qualifications in accordance with Education Code 17400 and 1740(c). 3311.2 - Lease-Leaseback Contracts
5. When procuring a design-build contract for a public works project in excess of \$1,000,000 in accordance with Education Code 17250.20, in which case the Board may award the contract to either the low bid or the best value to the district, taking into consideration, at a minimum, price, technical design and construction expertise, and life-cycle costs (Education Code 17250.20, 17250.25)

Protests by Bidders

A bidder may protest a bid award if he/she believes that the award is not in compliance with law, Board policy, or the bid specification. A protest must be filed in writing with the Superintendent or designee within five working days after receipt of notification of the contract award and shall include all documents supporting or justifying the protest. A bidder's failure to file the protest documents in a timely manner shall constitute a waiver of his/her right to protest the award of the contract.

The Superintendent or designee shall review the documents submitted with the bidder's claims and render a decision in writing within 30 working days. The Superintendent or designee may also convene a meeting with the bidder in order to attempt to resolve the problem.

The bidder may appeal the Superintendent or designee's decision to the Board. The Superintendent or designee shall provide notice to the bidder of the date and time for Board consideration of the protest at least three business days before the Board meeting. The Board's decision shall be final.

Limitation on Use of Sole Sourcing

In any contract for the construction, alteration, or repair of school facilities, the Superintendent or designee shall ensure that the bid specification: (Public Contract Code 3002, 3400)

1. Does not directly or indirectly limit bidding to any one specific concern
2. Does not call for a designated material, product, thing, or service by a specific brand or trade name, unless the specification is followed by the words "or equal," so that bidders may furnish any equal material, product, thing,

or service

In any such case, the bid specification shall provide a time period, before and/or after the award of the contract, for the contractor to submit data substantiating the request for substituting the designated material, product, thing, or service. If no such time period is specified, the contractor may submit the data within 35 days after the award of the contract.

When the bid is for a roof project, a material, product, thing, or service is considered "equal" to that designated if it is equal in quality, durability, design, and appearance; will perform the intended function equally well; and conforms substantially to the detailed requirements in the bid specification.

However, the Superintendent or designee may designate a specific material, product, thing, or service by brand or trade name (sole sourcing) if the Board has made a finding, described in the invitation for bids or request for proposals (RFP), that a particular material, product, thing, or service is designated for any of the following purposes: (Public Contract Code 3400)

1. To conduct a field test or experiment to determine its suitability for future use
2. To match others in use on a particular public improvement that has been completed or is in the course of completion
3. To obtain a necessary item that is only available from one source
4. To respond to the Board's declaration of an emergency, as long as the declaration has been approved by four-fifths of the Board when issuing the invitation for bid or RFP

Bids Not Required

Without advertising for bids and upon a determination that it is in the best interest of the district, the Board may authorize another public corporation or agency, by contract, lease, requisition, or purchase order, to lease data-processing equipment or to purchase materials, supplies, equipment, automotive vehicles, tractors, and other personal property for the district in the manner that the other public corporation or agency is authorized to make the leases or purchases from a vendor ("piggyback"). Alternatively, if the public corporation or agency has an existing contract with a vendor for the lease or purchase of personal property, the district may authorize the lease or purchase of personal property directly from the vendor and make payments under the same terms that are available to the public corporation or agency under the contract. (Public Contract Code 20118)

Without advertising for bids, the Board may enter into an energy service contract and any related facility ground lease, when it determines that the terms of the contract and lease are in the best interest of the district and meet the cost effectiveness requirements specified in Government Code 4217.12. The Board's determination shall be made at a regularly scheduled public hearing of which notice is given to the public at least two weeks in advance and shall be based on cost and savings comparison findings specified in Government Code 4217.12. (Government Code 4217.12)

Supplementary textbooks, library books, educational films, audiovisual materials, test materials, workbooks, instructional computer software packages, or periodicals may be purchased in any amount without taking estimates or advertising for bids. (Public Contract Code 20118.3)

Perishable foodstuffs and seasonal commodities needed in the operations of cafeterias may be purchased through bid or on the open market. (Education Code 38083)

Bids shall not be required for day labor under circumstances specified in Public Contract Code 20114. Day labor shall include the use of maintenance personnel employed on a permanent or temporary basis. (Public Contract Code 20114)

In an emergency when any repairs, alterations, work, or improvement to any school facility is necessary to permit the continuance of existing school classes or to avoid danger to life or property, the Board may, by unanimous vote and with the approval of the County Superintendent of Schools, contract for labor and materials or supplies without advertising for or inviting bids or may authorize the use of day labor or force account for the emergency purpose. (Public Contract Code 1102, 20113)

The district may purchase any surplus property from the federal government or any of its agencies in any quantity needed for the operation of its schools without taking estimates or advertising for bids. (Education Code 17602)

Policy 3311.1: Uniform Public Construction Cost Accounting Procedures

Status: DRAFT

Original Adopted Date: Pending

In awarding contracts for public works projects involving district facilities, the Board of Trustees desires to obtain the best value to the district and ensure the qualifications of contractors to complete the project in a satisfactory manner. The Board has, by resolution, adopted the procedures set forth in the Uniform Public Construction Cost Accounting Act pursuant to Public Contract Code 22030-22045, including the informal bidding procedures when allowed by law.

The Board delegates to the Superintendent or designee the responsibilities to award any contract eligible for informal bidding procedures and to develop plans, specifications, and working details for all public projects requiring formal bidding procedures.

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading legal requirements for competitive bidding. (Public Contract Code 22033)

Projects awarded through the UPCCAA shall be subject to the cost accounting procedures established by the California Uniform Construction Cost Accounting Commission. (Public Contract Code 22030)

Emergency Actions

When formal bids are required by law but an emergency necessitates immediate repair or replacements, the Board may, upon a four-fifths vote of the Board, proceed to replace or repair a facility without adopting plans, specifications, strain sheets, or working details or giving notice for bids to let contracts. The work may be done by day labor under the direction of the Board and/or contractor. The emergency action shall subsequently be reviewed by the Board in accordance with Public Contract Code 22050 and shall be terminated at the earliest possible date that conditions warrant, so that the remainder of the emergency action may be completed by giving notice for bids to let contracts. (Public Contract Code 1102, 22035, 22050)

Regulation 3311.1: Uniform Public Construction Cost Accounting Procedures

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 12/01/2018

Procedures for awarding contracts for public works projects shall be determined on the basis of the amount of the project, as follows:

1. Public projects of \$60,000 or less may be performed by district employees by force account, negotiated contract, or purchase order. (Public Contract Code 22032)
2. Contracts for public projects of \$200,000 or less may be awarded through the following informal procedures: (Public Contract Code 22032, 22034, 22038)
 - a. The Superintendent or designee shall prepare a notice inviting informal bids which describes the project in general terms, explains how to obtain further information about the project, and states the time and place for the submission of bids. This notice shall be disseminated by mail, fax, or email to either or both of the following:
 - i. All contractors on a list of qualified contractors maintained by the district for the category of work being bid, unless the product or service is proprietary, at least 10 calendar days before bids are due
 - ii. All construction trade journals identified pursuant to Public Contract Code 22036
 - b. The district shall review the informal bids that were submitted and award the contract, except that:
 - i. If all bids received through the informal process are in excess of \$200,000, the contract may be awarded to the lowest responsible bidder, provided that the Board of Trustees adopts a resolution with a four-fifths vote to award the contract at \$212,500 or less and the Board determines the district's cost estimate is reasonable.
 - ii. If no bids are received through the informal bid procedure, the project may be performed by district employees by force account or negotiated contract.
3. Public projects of more than \$200,000 shall, except as otherwise provided by law, be subject to formal bidding procedures, as follows: (Public Contract Code 22032, 22037, 22038)

Through publication in a newspaper of general circulation in the district's jurisdiction or, if there is no such newspaper, then by posting the notice in at least three places designated by the district as places for posting its notices. Such notice shall be published at least 14 calendar days before the date that bids will be opened.
 - ii. By mail and electronically, if available, by either fax or email, to all construction trade journals identified pursuant to Public Contract Code 22036. Such notice shall be sent at least 15 calendar days before the date that bids will be opened.

In addition to the notice required above, the district may give such other notice as it deems proper.
 - b. The district shall award the contract as follows:
 - i. The contract shall be awarded to the lowest responsible bidder. If two or more bids are the same and the lowest, the district may accept the one it chooses.
 - ii. At its discretion, the district may reject all bids presented and declare that the project can be more economically performed by district employees, provided that the district notifies an apparent low bidder, in writing, of the district's intention to reject the bid. Such notice shall be mailed at least two business days prior to the hearing at which the district intends to reject the bid.

- iii. If no bids are received through the formal bid procedure, the project may be performed by district employees by force account or negotiated contract.
-

Regulation 3311.2: Lease-Leaseback Contracts

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

The district may lease currently owned district property to any person, firm, or corporation for a minimum of \$1 per year for a term not to exceed 99 years, as long as the lease requires the person, firm, or corporation to construct a building or buildings on the property for the district's use during the lease and the property and building(s) will vest in the district at the expiration of the lease ("lease-leaseback"). (Education Code 17403, 17406)

Before the district enters into such a lease or agreement, it shall have available a site upon which a building may be constructed for use by the district, shall have complied with requirements related to the selection and approval of sites, and shall have prepared and adopted plans and specifications for the building that have been approved in accordance with Education Code 17280-17316. (Education Code 17402)

Procedures for Awarding the Contract

The district's intent to enter into a lease-leaseback contract may be described in a resolution adopted by the Board of Trustees which includes, but is not be limited to, a description of the available site and the building to be constructed, the amount and term of the lease, and where to obtain information about the procedures for submitting a proposal.

Any lease-leaseback contract shall be awarded through a competitive "best value" procurement process whereby a person, firm, or corporation is selected on the basis of objective criteria for evaluating the qualifications of proposers, with the resulting selection representing the best combination of price and qualifications. (Education Code 17400, 17406)

To make this determination, the district shall use the following procedures: (Education Code 17406; Public Contract Code 2600)

1. Request for Sealed Proposals: The Superintendent or designee shall prepare a request for sealed proposals which shall include:
 - a. An estimate of the project's price
 - b. A clear, precise description of any preconstruction services that may be required and the facilities to be constructed
 - c. The key elements of the contract to be awarded
 - d. A description of the format that proposals shall follow and the elements they shall contain
 - e. The standards the district will use in evaluating proposals and the qualifications of the proposers, including:
 - i. Relevant experience
 - ii. Safety record
 - iii. Price proposal, including, at the district's discretion, either a lump-sum price for the contract to be awarded or the proposer's proposed fee to perform the services requested, including the proposer's proposed fee to perform preconstruction services or any other work related to the facilities to be constructed, as requested by the district
 - iv. Whether each criterion will be evaluated on a pass-fail basis or will be scored as part of the "best value" score, and whether proposers must achieve any minimum qualification score for award of the contract
 - v. For each scored criterion, the methodology and rating or weighting system that will be used by the district in evaluating the criterion, including the weight assigned to the criterion and any minimum acceptable score

- vi. Other factors established by the district
 - f. The date on which proposals are due
 - g. The timetable the district will follow in reviewing and evaluating proposals
 - h. A statement that the project is subject to the skilled and trained workforce requirements specified in Public Contract Code 2600-2603
2. Notice: At least 10 days before the date for receipt of the proposals, the Superintendent or designee shall give notice of the request for sealed proposals using both of the following methods:
- a. Providing notice at least once a week for two weeks in a local newspaper of general circulation pursuant to Public Contract Code 20112
 - b. Providing notice in a trade paper of general circulation published in the county where the project is located
- The Superintendent or designee also may post the notice on the district's web site or through an electronic portal.
3. Prequalification: A proposer shall be prequalified in accordance with Public Contract Code 20111.6(b)-(m) in order to submit a proposal. Any electrical, mechanical, and plumbing subcontractors shall be subject to the same prequalification requirements.
4. Evaluation of Proposals: All proposals received shall be reviewed to determine whether they meet the format requirements and the standards specified in the request for sealed proposals. The district shall evaluate the qualifications of the proposers based solely upon the criteria and evaluation methodology set forth in the request for sealed proposals, and shall assign a best value score to each proposal. Once the evaluation is complete, all responsive proposals shall be ranked from the highest best value to the lowest best value to the district.
5. Award of Contract: The award of the contract shall be made by the Board to the responsive proposer whose proposal is determined, in writing by the Board, to be the best value to the district.

If the selected proposer refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the second highest best value score, if deemed in the best interest of the district. If that proposer then refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the third highest best value score.

Upon issuance of a contract award, the district shall publicly announce its award, identifying the entity to which the award is made, along with a statement regarding the basis of the award. The statement regarding the contract award and the contract file shall provide sufficient information to satisfy an external audit.

6. Rejection of Proposals: At its discretion, the Board may reject all proposals and request new proposals.

Any lease-leaseback agreement shall be reviewed by the district's legal counsel to ensure that all required terms, including a lease term that provides for the district's occupancy of the building or improved property during the lease and an appropriate financing component, are included in the agreement.

Skilled and Trained Workforce

Prior to entering into a lease-leaseback agreement, the Superintendent or designee shall have on file the contractor's enforceable commitment that the contractor and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. The entity may demonstrate such commitment through a project labor agreement, by becoming a party to the district's project labor agreement, or through an agreement with the district to provide evidence of compliance on a monthly basis during the performance of the project or contract. (Education Code 17407.5; Public Contract Code 2602)

Skilled and trained workforce means that all the workers performing the work are either skilled journeypersons or apprentices registered in a state-approved apprenticeship program. At least 60 percent of the skilled journeypersons employed to perform the work shall be graduates of an apprenticeship program for the applicable occupation or at least 60 percent of the hours worked by skilled journeypersons shall be performed by graduates of an apprenticeship program, with the exception of certain occupations specified in Public Contract Code 2601 which are subject to a 30 percent threshold. (Public Contract Code 2601)

If the contractor fails to provide the monthly report demonstrating compliance with the skilled and trained workforce requirements or provides an incomplete report, the district shall withhold further payments until a complete report is provided. Regulation 3311.3: Design-Build Contracts

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

The Board of Trustees may approve a contract with a single entity for both design and construction of any school facility in excess of \$1,000,000, awarding the contract to either the low bid or the best value as determined by evaluation of objective criteria. (Education Code 17250.20)

Design-build documents shall not include provisions for long-term project operations, but may include operations during a training or transition period. (Education Code 17250.25)

Procedures for Awarding the Contract

The procurement process for design-build projects shall be as follows: (Education Code 17250.25, 17250.35; Public Contract Code 2600)

1. Performance Specifications: The district shall prepare a set of documents setting forth the scope and estimated price of the project. The documents may include, but are not limited to:

- a. The size, type, and desired design character of the project
- b. Performance specifications that cover the quality of materials, equipment, and workmanship
- c. Preliminary plans or building layouts
- d. Any other information deemed necessary to describe adequately the district's needs

The performance specifications and any plans shall be prepared by a design professional who is duly licensed and registered in California.

2. Prequalification: The district shall prepare and issue a request for qualifications in order to prequalify, or develop a short list of, the design-build entities whose proposals shall be evaluated for final selection. The request for qualifications shall include, but is not limited to, all of the following elements:

- a. Identification of the basic scope and needs of the project or contract, the expected cost range, the methodology that will be used by the district to evaluate proposals, the procedure for final selection of the design-build entity, and any other information deemed necessary by the district to inform interested parties of the contracting opportunity
- b. Significant factors that the district reasonably expects to consider in evaluating qualifications, including technical design and construction expertise, acceptable safety record, and all other non-price-related factors
- c. A standard template request for statements of qualifications prepared by the district, which shall contain all of the information required pursuant to Education Code 17250.25
- d. A notice that the project is subject to the skilled and trained workforce requirements specified in Public Contract Code 2600-2603

The district also may identify specific types of subcontractors that must be included in the statement of qualifications and proposal.

3. Request for Proposals: The district shall prepare a request for proposals (RFP) that invites prequalified or short-listed entities to submit competitive sealed proposals in a manner prescribed by the district. The RFP shall include the information identified in items #2a, 2b, and 2d above and the relative importance or weight assigned to each of the factors. If the district uses a best value selection method for a project, the district may reserve the right to request proposal revisions and hold discussions and negotiations with responsive proposers, in which case the district shall so specify in the request for proposals and shall publish separately or incorporate into the request for proposals applicable procedures to be observed by the district to ensure that any discussions or negotiations are conducted in good faith.

4. Selection Based on Low Bid: For those projects utilizing low bid as the final selection method, the bidding process shall result in lump-sum bids by the prequalified or short-listed design-build entities, and the contract shall be awarded to the lowest responsible bidder.
5. Selection Based on Best Value: For those projects utilizing best value as a selection method, the following procedures shall be used:
 - a. Competitive proposals shall be evaluated using only the criteria and selection procedures specifically identified in the request for proposals. Criteria shall be weighted as deemed appropriate by the district and shall, at a minimum, include price, unless a stipulated sum is specified; technical design and construction experience; and life-cycle costs over 15 or more years.
 - b. Following any discussions or negotiations with responsive proposers and completion of the evaluation process, the responsive proposers shall be ranked on a determination of value provided, provided that no more than three proposers are required to be ranked.
 - c. The contract shall be awarded to the responsible entity whose proposal is determined by the district to have offered the best value to the public.
 - d. The district shall publicly announce the contract award, identifying the entity to which the award is made and the basis of the award. This statement and the contract file shall provide sufficient information to satisfy an external audit.

Skilled and Trained Workforce

A design-build entity shall not be prequalified or short-listed unless the entity provides an enforceable commitment to the district that the entity and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. The entity may demonstrate such commitment through a project labor agreement, by becoming a party to the district's project labor agreement, or through an agreement with the district to provide evidence of compliance on a monthly basis during the performance of the project or contract. (Education Code 17250.25; Public Contract Code 2602)

Skilled and trained workforce means that all the workers performing the work are either skilled journeypersons or apprentices registered in a state-approved apprenticeship program. At least 60 percent of the skilled journeypersons employed to perform the work shall be graduates of an apprenticeship program for the applicable occupation or at least 60 percent of the hours worked by skilled journeypersons shall be performed by graduates of an apprenticeship program, with the exception of certain occupations specified in Public Contract Code 2601 which are subject to a 30 percent threshold. (Public Contract Code 2601)

If the contractor fails to provide the monthly report demonstrating compliance with the skilled and trained workforce requirements or provides an incomplete report, the district shall withhold further payments until a complete report is provided. If a report does not demonstrate compliance with the skilled and trained workforce requirements, the district shall withhold further payments until the contractor provides a sufficient plan to achieve substantial compliance with respect to the relevant apprenticeable occupation, prior to completion of the contract or project. In addition, the district shall forward to the Labor Commissioner a copy of the monthly report, any plan to achieve compliance, and the district's response to that plan. (Public Contract Code 2602)

Regulation 3311.4: Procurement Of Technological Equipment

Status: DRAFT

Original Adopted Date: Pending

Rather than seek competitive bids, the district may use competitive negotiation when it makes a finding that a district procurement is for computers, software, telecommunications equipment, microwave equipment, or other related electronic equipment and apparatus. Competitive negotiation shall not be used to contract for any product that is available in substantial quantities to the general public. (Public Contract Code 20118.2)

Whenever the competitive negotiation process is determined to be appropriate for such procurements, the district shall use the following procedures: (Public Contract Code 20118.2)

1. The Superintendent or designee shall prepare a request for proposals (RFP) that shall be submitted to an adequate number of qualified sources, as determined by the district, to permit reasonable competition consistent with the nature and requirement of the procurement.
2. Notice of the RFP shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.
3. The Superintendent or designee shall make every effort to generate the maximum feasible number of proposals from qualified sources, and shall make a finding to that effect before proceeding to negotiate if only a single response to the RFP is received.
4. The RFP shall identify all significant evaluation factors, including price, and their relative importance.
5. The Superintendent or designee shall provide reasonable procedures for the technical evaluation of the RFPs received, the identification of qualified sources, and the selection for the award of the contract.
6. The Board of Trustees shall award the contract to the qualified bidder whose proposal meets the evaluation standards and will be most advantageous to the district, considering price and all other factors.
7. If the Board does not award the contract to the bidder whose proposal contains the lowest price, then the Board shall make a finding setting forth the basis for the award to another bidder.
8. The Board, at its discretion, may reject all proposals and request new RFPs.

Provisions in any contract concerning utilization of small business enterprises that are in accordance with the RFP shall not be subject to negotiation with the successful proposer. (Public Contract Code 20118.2)

Policy 3452: Student Activity Funds

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2021

The Board of Trustees recognizes that student organizations can provide students with an opportunity to conduct worthwhile cocurricular activities while helping students learn about effective financial practices and develop leadership and management skills. To that end, the Board may approve the formation of associated student body organizations which are composed entirely of students, operate under the oversight of the principal or other district-employed advisor, and are subject to the control and regulation of the Board. Student organizations may raise and spend funds to support activities that promote the general welfare, morale, and educational experiences of the student body.

Fundraising

At the beginning of each school year, each principal or designee shall submit to the Superintendent or designee a list of the fundraising events that each student organization proposes to hold that year. The Superintendent or designee shall review the proposed events and determine whether the events contribute to the educational experience and do not conflict with or detract from the school's educational program. When reviewing proposed events, the Superintendent or designee shall consider the effects of the activities on student health and safety, evaluate the risk of liability to the district, and ensure that the proposed activities are in compliance with law, Board policy, and administrative regulation.

Fundraising events that involve the sale of food and/or beverages shall comply with applicable state and/or federal nutrition standards and BP/AR 3554 - Other Food Sales. If the fundraising event involves the sale of noncompliant food and/or beverages, it shall not take place from midnight until at least one-half hour after the end of the school day, or not be conducted on school premises.

Management and Reporting of Funds

Student body funds shall be managed in accordance with law, regulations, Board policies, and sound business procedures designed to encourage the largest possible educational return to students without sacrificing the security of funds.

The Superintendent or designee shall develop internal control procedures to safeguard the organization's assets, promote the success of fundraising ventures, provide reliable financial information, protect employees and volunteers from accusations of impropriety, and reduce the risk and promote the detection of fraud and abuse.

These procedures shall detail the oversight of activities and funds including, but not limited to, the appropriate role and provision of training for staff and students, parameters for events on campus, appropriate and prohibited uses of funds, and accounting and record-keeping processes, including procedures for handling questionable expenditures.

The principal or designee shall be responsible for the proper conduct of all student organization financial activities.

The budget adopted by the student body organization should serve as the financial plan for the school year and shall be submitted to the Superintendent or designee at the beginning of each school year. The Superintendent or designee shall monitor the budget and periodically review the organization's use of funds to ensure compliance with the district's internal control procedures.

Funds derived from the student body shall be expended according to procedures established by the student organization. All expenditures must be approved by a Board-designated employee or official, the certificated employee who is the designated student organization advisor, and a student organization representative. (Education Code 48933)

When student body funds are expended for equipment, supplies, or activities that support the district's athletic program, the Superintendent or designee shall ensure that the expenditures are aligned with the district's commitment to provide equitable opportunities for males and females.

Because of the district's administrative and/or direct financial involvement in the assets of the student organization, the student activity fund shall be reported within the district's fund in accordance with Governmental Accounting Standards Board Statement 84.

The Board shall provide an annual audit of student organization accounts by a certified public accountant or licensed

public accountant. The cost of the audit shall be paid from district funds. (Education Code 41020)

If the district's certification is subsequently changed by the County Superintendent from a positive to a qualified or negative certification, or from a qualified to a negative certification, the Board may appeal the decision to the SPI within five days of receiving the notice of change. (Education Code 42131)

Whenever the district receives a qualified or negative certification from the Board or the County Superintendent, the Superintendent or designee shall cooperate in the implementation of any remedial actions taken or prescribed by the County Superintendent under the authority granted to him/her pursuant to Education Code 42131.

If the second interim report is accompanied by a qualified or negative certification, the Board shall, no later than June 1, provide to the County Superintendent, the State Controller, and the SPI a financial statement as of April 30 ("third interim report") that projects the district's fund and cash balances through June 30. Within 15 days of receiving the report, the district shall notify the County Superintendent and the SPI of its proposed actions on the recommendation. (Education Code 42637)

Policy 3470: Debt Issuance And Management

Status: DRAFT

Original Adopted Date: Pending

The Board of Trustees is committed to long-term capital and financial planning and recognizes that the issuance of debt is a key source for funding the improvement and maintenance of school facilities and managing cash flow. Any debt issued by the district shall be consistent with law and this policy.

The district shall not enter into indebtedness or liability that in any year exceeds the income and revenue provided for such year, unless two-thirds of the voters approve the obligation or one of the exceptions specified in law applies. (California Constitution, Article 16, Section 18)

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the Board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance. When approved by the Board and/or the voters as applicable, the Superintendent or designee shall administer and coordinate the district's debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

The Superintendent or designee shall retain a financial advisor, municipal advisor, investment advisor, and other financial services professionals as needed to assist with the structuring of the debt issuance and to provide general advice on the district's debt management program, financing options, investments, and compliance with legal requirements. Contracts for services provided by such advisors may be for a single transaction or for multiple transactions, consistent with the contracting requirements in Education Code 17596. In the event that the district issues debt through a negotiated sale, underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the district shall select a legal team on an as-needed basis to assist with debt issuances or special projects.

Goals

The district's debt issuance activities and procedures shall be aligned with the district's vision and goals for providing adequate facilities and programs that support student learning and well-being. When issuing debt, the district shall ensure that it:

1. Maintains accountability for the fiscal health of the district, including prudent management and transparency of the district's financing programs
2. Attains the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements
3. Takes all practical precautions and proactive measures to avoid any financial decision that will negatively impact current credit ratings on existing or future debt issues
4. Maintains effective communication with rating agencies and, as appropriate, credit enhancers such as bond insurers or other providers of credit or liquidity instruments in order to enhance the creditworthiness, liquidity, or marketability of the debt
5. Monitors the district's statutory debt limit in relation to assessed valuation within the district and the tax burden needed to meet long-term debt service requirements
6. When determining the timing of debt issuance, considers market conditions, cash flows associated with repayment, and the district's ability to expend the obtained funds in a timely, efficient, and economical manner consistent with federal tax laws
7. Determines the amortization (maturity) schedule which will fit best within the overall debt structure of the district at the time the new debt is issued
8. Considers the useful lives of assets funded by the debt issue, as well as repair and replacement costs of those assets to be incurred in the future

9. Preserves the availability of the district's general fund for operating purposes and other purposes that cannot be funded by the issuance of voter-approved debt
10. Meets the ongoing obligations and accountability requirements associated with the issuance and management of debt under state and federal tax and securities laws

Authorized Purposes for the Issuance of Debt

The district may issue debt for any of the following purposes:

1. To pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and/or equipping district facilities
2. To refund existing debt
3. To provide for cash flow needs

Pursuant to Government Code 53854, general operating costs, including, but not limited to, items normally funded in the district's annual operating budget, shall not be financed from debt payable later than 15 months from the date of issuance. The district may deem it desirable to finance cash flow requirements under certain conditions so that available resources better match expenditures within a given fiscal year. To satisfy both state constitutional and statutory constraints, such cash flow borrowing shall be payable from taxes, income, revenue, cash receipts, and other moneys attributable to the fiscal year in which the debt is issued.

Authorized Types of Debt

The Superintendent or designee shall recommend to the Board potential financing method(s) that result in the highest benefit to the district, with the cost of staff and consultants considered. Potential financing sources may include:

1. Short-Term Debt
 - a. Short-term debt, such as tax and revenue anticipation notes (TRANs), when necessary to allow the district to meet its cash flow requirements (Government Code 53850-53858)
 - b. Bond anticipation notes (BANs) to provide interim financing for capital bond projects that will ultimately be paid from general obligation bonds (Education Code 15150)
 - c. Grant anticipation notes (GANs) to provide interim financing pending the receipt of grants and/or loans from the state or federal government that have been appropriated and committed to the district (Government Code 53859-53859.08)
2. Long-Term Debt
 - a. General obligation bonds for projects approved by voters (California Constitution, Article 13A, Section 1; Education Code 15100-15262, 15264-15276; Government Code 53506-53509.5)
 - b. Special tax bonds issued pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code 53311-53368.3)
3. Lease financing, including certificates of participation (COPs)
 - a. Lease financing to fund the highest priority capital equipment purchases when pay-as-you-go financing is not feasible (Education Code 17450-17453.1)
 - b. Lease financing to fund facilities projects when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is either not feasible or unavailable (Education Code 17400-17429)
4. Special financing programs or structures offered by the federal or state government, such as Qualified Zone Academy Bonds or other tax credit obligations or obligations that provide subsidized interest payments, when

the use of such programs or structures is determined to result in sufficiently lower financing costs compared to traditional tax-exempt bonds and/or COPs

5. Temporary borrowing from other sources such as the County Treasurer

COPs, TRANs, revenue bonds, or any other non-voter approved debt instrument shall not be issued by the district in any fiscal year in which the district has a qualified or negative certification, unless the County Superintendent of Schools determines, pursuant to criteria established by the Superintendent of Public Instruction, that the district's repayment of that indebtedness is probable. (Education Code 42133)

Relationship of Debt to District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvement shall be aligned with current needs for acquisition, development, and/or improvement of district property and facilities as identified in the district's facilities master plan or other applicable needs assessment, the projected costs of those needs, schedules for the projects, and the expected resources.

The cost of debt issued for major capital repairs or replacements shall be evaluated against the potential cost of delaying such repairs and/or replacing such facilities.

When considering a debt issuance, the Board and the Superintendent or designee shall evaluate both the short-term and long-term implications of the debt issuance and additional operating costs associated with the new projects involved. Such evaluation may include, but is not limited to, the projected ratio of annual debt service to the tax burden on the district's taxpayers and the ratio of annual debt service secured by the general fund to general fund expenditures.

The district may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

Structure of Debt Issues

The district shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

The district shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, ensure cost effectiveness, provide flexibility, and, as practical, recapture or maximize its debt capacity for future use. Principal amortization will be structured to meet debt repayment, tax rate, and flexibility goals.

For new money debt issuances for capital improvements, the district shall size the debt issuance with the aim of funding capital projects as deemed appropriate by the Board, as long as the issuance is consistent with the overall financing plan, does not exceed the amount authorized by voters, and, unless a waiver is sought and received from the state, will not cause the district to exceed the limitation on debt issuances specified in the California Constitution or Education Code 15106.

To the extent practicable, the district shall also consider credit issues, market factors, and tax law when sizing the district's bond issuance. The sizing of refunding bonds shall be determined by the amount of money that will be required to cover the principal of, any accrued interest on, and any redemption premium for the debt to be paid on the call date and to cover appropriate financing costs.

Any general obligation bond issued by the district shall mature within 40 years of the issuance date or as otherwise required by law. (California Constitution, Article 16, Section 18; Government Code 53508.6)

The final maturity of equipment or real property lease obligations will be limited to the useful life of the assets to be financed but, with respect to a lease purchase of equipment, no longer than a period of 10 years. (Education Code 17452)

Method of Sale

For the sale of any district-issued debt, the Superintendent or designee shall recommend the method of sale with the

potential to achieve the lowest financing cost and/or to generate other benefits to the district. Potential methods of sale include:

1. A competitive bidding process through which the award is based on, among other factors, the lowest offered true interest cost
2. Negotiated sale, subject to approval by the district to ensure that interest costs are in accordance with comparable market interest rates
3. Private placement sale, when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the district than either a negotiated or competitive sale

Investment of Proceeds

The district shall actively manage the proceeds of debt issued for public purposes in a manner that is consistent with state law governing the investment of public funds and with the permitted securities covenants of related financing documents executed by the district. Where applicable, the district's official investment policy and legal documents for a particular debt issuance shall govern specific methods of investment of bond-related proceeds. Preservation of principal shall be the primary goal of any investment strategy, followed by the availability of funds and then by return on investment.

With regard to general obligation bonds, the district shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

The management of public funds shall enable the district to respond to changes in markets or changes in payment or construction schedules so as to ensure liquidity and minimize risk.

Refunding/Restructuring

The district may consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility. When doing so, the district shall consider the maximization of the district's expected net savings over the life of the debt issuance and, when using a general obligation bond to refund an existing bond, shall ensure that the final maturity of the refunding bond is no longer than the final maturity of the existing bond.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the district in maintaining the effectiveness and efficiency of operations, properly expending funds, reliably reporting debt incurred by the district and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

The district shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred as defined in the text of the voter-approved bond measure. (Government Code 53410)

When feasible, the district shall issue debt with a defined revenue source in order to preserve the use of the general fund for general operating purposes.

The district shall annually conduct a due diligence review to ensure its compliance with all ongoing obligations applicable to issuers of debt. Such a review may be conducted by general legal counsel or bond counsel. Any district personnel involved in conducting such reviews shall receive periodic training regarding their responsibilities.

In addition, the Superintendent or designee shall ensure that the district completes, as applicable, all performance and financial audits that may be required for any debt issued by the district, including disclosure requirements applicable to a particular transaction.

Records/Reports

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall submit a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC). Such report shall include a

self-certification that the district has adopted a policy concerning the use of debt that complies with law and that the contemplated debt issuance is consistent with that policy. (Government Code 8855)

On or before January 31 of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the period from July 1 to June 30. (Government Code 8855)

The Superintendent or designee shall provide initial and any annual or ongoing disclosures required by 17 CFR 240.10b-5 and 240.15c2-12 to the Municipal Securities Rulemaking Board, investors, and other persons or entities entitled to disclosure, and shall ensure that the district's disclosure filings are updated as needed.

The Superintendent or designee shall maintain transaction records of decisions made in connection with each debt issuance, including the selection of members of the financing team, the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products. Each transaction file shall include the official transcript for the financing, interest rates and cost of issuance on the day when the debt was sold ("final number runs"), and a post-pricing summary of the debt issue. In addition, documentation evidencing the expenditure of proceeds, the use of debt-financed property by public and private entities, all sources of payment or security for the debt, and investment of proceeds shall be kept for as long as the debt is outstanding, plus the period ending three years after the financial payment date of the debt or the final payment date of any obligations or series of bonds issued to refund directly or indirectly all of any portion of the debt, whichever is later.

Policy 3471: Parcel Taxes

Status: DRAFT

Original Adopted Date: Pending

The Board of Trustees recognizes its obligation to provide a high-quality educational program within safe facilities and secure campuses, and that additional funds are at times necessary to fulfill this responsibility. The Board may consider appropriate methods of financing and, when it is in the best interest of the district, may order the placement of a parcel tax on the ballot for approval by the voters.

The Board shall hold a noticed public hearing prior to approving a resolution for the adoption of a parcel tax. The resolution shall be approved by a two-thirds vote of the Board in order to be placed on the ballot. The resolution shall include the type and rate of the tax to be levied, the method of collection, and the date upon which an election shall be held to approve the levy of the tax. (Government Code 50077, 53724)

The parcel tax shall apply uniformly to all taxpayers or all real property within the district, except that unimproved property may be taxed at a lower rate than improved property. (Government Code 50079)

The Board shall consult with legal counsel to ensure compliance with all requirements of law, including its determination of the appropriate amount of the proposed parcel tax and whether exemptions from the tax will be granted.

Any parcel tax to be proposed for voter approval shall provide for accountability measures, including, but not limited to, a statement indicating the specific purposes of the special tax and that the proceeds of the tax shall be used only for the specific purposes identified, creation of a separate account into which the proceeds shall be deposited, and annual reporting pursuant to Government Code 50075.3. (Government Code 50075.1)

No district funds, services, supplies, or equipment shall be used to support or defeat a parcel tax ballot measure. The Superintendent or designee may use district resources to provide students, parents/guardians, and community members with fair and impartial information related to a parcel tax ballot measure, including information about the impact of the parcel tax on the district. (Education Code 7054)

Upon approval of the tax by two-thirds of the votes, the district may levy the tax or contract with the county to collect the tax on the district's behalf. (Government Code 50077)

Exemptions

The Board may grant an exemption from the parcel tax for any or all of the following: (Government Code 50079)

1. Persons who are 65 years of age or older
2. Persons receiving Supplemental Security Income for a disability, regardless of age
3. Persons receiving Social Security Disability Insurance benefits, regardless of age, whose yearly income does not exceed 250 percent of the 2012 federal poverty guideline issued by the U.S. Department of Health and Human Services

Any exemption granted by the Board shall remain in effect until the taxpayer becomes ineligible. If the taxpayer becomes ineligible for the exemption for any reason, a new exemption may be granted in the same manner. (Government Code 50079)

If the district provides for an exemption from the parcel tax and contracts or enters into an agreement with the county to collect such tax, the district shall annually provide to the tax collector a phone number where requests for exemption information may be directed and the link, if available, to the location on the district's web site that contains exemption information and the application for exemption. (Government Code 50079)

Policy 3513.3: Tobacco-Free Schools

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 07/01/2016

The Board of Trustees recognizes that smoking and other uses of tobacco and nicotine products constitute a serious public health hazard and are inconsistent with district goals to provide a healthy environment for students and staff.

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated cigar, cigarette, pipe, tobacco, or plant product intended for inhalation, whether natural or synthetic, in any manner or form, and includes the use of an electronic smoking device that creates aerosol or vapor or of any oral smoking device for the purpose of circumventing the prohibition of smoking. Any other person who violates the district's policy on tobacco-free schools shall be informed of the district's policy and asked to refrain from smoking. If the person fails to comply with this request, the Superintendent or designee may:

1. Direct the person to leave school property
2. Request local law enforcement assistance in removing the person from school premises
3. If the person repeatedly violates the tobacco-free schools policy, prohibit him/her from entering district property for a specified period of time

The Superintendent or designee shall not be required to physically eject a nonemployee who is smoking or to request that the nonemployee refrain from smoking under circumstances involving a risk of physical harm to the district or any employee. (Labor Code 6404.5)

Policy 3513.4: Drug And Alcohol Free Schools

Status: DRAFT

The Board of Trustees recognizes the need to keep district schools free of drugs and alcohol in order to create a safe and healthy environment conducive to learning and promote student health and well-being. The Board prohibits the possession, use, or sale of drugs and alcohol at any time in district-owned or leased buildings, on district property, and in district vehicles, unless otherwise permitted by law.

The following substances are prohibited on all district property:

1. Any substance which may not lawfully be possessed, used, or sold in California
2. Cannabis or cannabis products (Health and Safety Code 11362.3; 21 USC 812, 844)

Students and employees who violate the terms of this policy may be subject to discipline and/or referred to assistance programs in accordance with law and Board policy.

Regulation 3514: Environmental Safety

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 05/01/2019

The Superintendent may designate and train one or more employees to oversee and coordinate the district's environmental safety program(s). The responsibilities of the coordinator(s) shall include, but are not limited to, overseeing assessments of district facilities, recommending strategies for the prevention and mitigation of environmental health risks, ensuring effective implementation of environmental safety strategies, and reporting to the Superintendent regarding the district's progress in addressing environmental safety concerns.

Indoor Air Quality

In order to provide proper ventilation, humidity, and temperature in school facilities and to reduce indoor air contaminants, the following strategies shall be implemented:

1. Mechanically driven heating, ventilation, and air conditioning systems shall be operated continuously during working hours except under the circumstances specified in 8 CCR 5142. The systems shall be inspected at least annually and problems corrected within a reasonable time. Where the air supply is filtered, the filters shall be replaced or cleaned regularly to prevent significant reductions in airflow. Documentation of inspections, tests of ventilation rates, and maintenance shall be retained for at least five years. (8 CCR 5142-5143)

Staff shall ensure that airflow is not obstructed by the blocking of ventilators with posters, furniture, books, or other obstacles.

2. School facilities shall be regularly inspected for water damage, spills, leaks in plumbing and roofs, poor drainage, and improper ventilation so as to preclude the buildup of mold and mildew and prevent accidents due to unsafe conditions. Wet building materials and furnishings shall be dried within 48 hours if possible to prevent mold growth. When evidence of mold or mildew is found, maintenance staff shall locate and repair the source of water intrusion and remove or clean moldy materials.
3. Exterior wall and foundation cracks and openings shall be sealed as soon as possible to minimize seepage of radon into buildings from surrounding soils.
4. Least toxic pest management practices shall be used to control and manage pests at school sites. (Education Code 17608-17614; Food and Agriculture Code 13182)
5. A carbon monoxide detector or alarm shall be installed in all school buildings that contain a fuel-burning appliance, fireplace, or forced-air furnace, unless otherwise exempted by state law or regulations. The device or alarm shall be located in close proximity to the appliance in order to accurately detect and alert school personnel of any leakage of carbon monoxide. (24 CCR 915.1-915.7)
6. Schedules and practices for routine housekeeping and maintenance shall be designed to effectively reduce levels of dust, dirt, and debris. Plain water, soap and water, or low-emission cleaning products shall be used whenever possible. Aerosols, including air fresheners and other products containing ozone, shall be avoided to the extent possible.
7. Painting of school facilities and maintenance or repair activities that require the use of potentially harmful substances shall be limited to those times when school is not in session. Following any such activity, the facility shall be properly ventilated with adequate time allowed prior to reopening for use by any person.
8. Paints, adhesives, and solvents shall be used and stored in well-ventilated areas. These items shall be purchased in small quantities to avoid storage exposure.
9. To the extent possible, printing and duplicating equipment that may generate indoor air pollutants, such as methyl alcohol or ammonia, shall be placed in locations that are well ventilated and not frequented by students and staff.
10. The district's tobacco-free schools policy shall be consistently enforced in order to reduce the health risks caused by second-hand smoke.

11. Staff and students shall be asked to refrain from bringing common irritants such as furred or feathered animals, stuffed toys that may collect dust mites, scented candles, incense, or air fresheners and from using perfume or cologne, scented lotion or hair spray, nail polish or nail polish remover, or other personal care products that are not fragrance-free in classrooms, school buses, or other enclosed areas or buildings.

Outdoor Air Quality

The Superintendent or designee may coordinate with the local air resources control board and monitor local health advisories and outdoor air quality alerts to obtain forecasts of ozone levels, particle pollution, ultraviolet radiation levels, and/or temperature and humidity.

Whenever a forecast indicates a significant health risk, the Superintendent or designee shall communicate with each principal so that outdoor activities, especially those requiring prolonged or heavy exertion, may be avoided, limited in duration, or modified as necessary for all persons or for persons who may be particularly susceptible to the health risk involved.

Reduction of Vehicle Emissions

In order to reduce public exposure to toxic air contaminants, school bus drivers and other drivers of commercial motor vehicles shall limit unnecessary idling of vehicles at or near schools in accordance with 13 CCR 2480. The Superintendent or designee may also request parents/guardians to turn off their vehicles when they are idling on school grounds and encourage students to walk and/or bicycle to school.

Any school bus that is diesel-fueled, dual-fueled, or alternative diesel-fueled and has a gross vehicle weight rating over 14,000 pounds shall be equipped with a particulate filter designed to reduce particulate matter emissions, oxides of nitrogen emissions, and other pollutants. (13 CCR 2025)

Drinking Water Safety

The quality and safety of the district's drinking water sources shall be regularly assessed, and drinking fountains shall be regularly cleaned and maintained, to ensure that drinking water consumed at school does not contain dirt, mold, lead, or other impurities or contaminants that may cause serious health concerns.

Whenever any contaminants in the drinking water are determined to be a concern, the Superintendent or designee shall take reasonable steps to identify the source and mitigate any potential problem to ensure the availability of safe drinking water. As needed, the Superintendent or designee shall provide alternative sources of drinking water, such as bottled water or on-site water filtration, to ensure that students have access to fresh drinking water at mealtimes and at other times throughout the day.

Whenever testing of drinking water finds concentrations of lead that exceed federal and state standards, the Superintendent or designee shall notify parents/guardians and take immediate steps to shut down and make inoperable any fountains or faucets where excess lead levels may exist.

Prevention of Lead Exposure

In addition to testing for the presence of lead in drinking water in district schools, the following steps shall be taken to minimize potential exposure to lead in school facilities:

1. School facilities shall be kept as dust-free and clean as possible.
2. Lead-based paint, lead plumbing and solders, or other potential sources of lead contamination shall not be used in the construction of any new school facility or the modernization or renovation of any existing school facility. (Education Code 32244)
3. Lead exposure hazards shall be evaluated before any renovation or remodeling is begun, and children shall not be allowed in or near buildings in which these activities may create lead dust. Contractors and workers shall comply with state and federal standards related to the handling and disposal of lead debris and the clean-up and containment of dust within the construction area.
4. Lead-based painted surfaces that are in good condition shall be kept intact. If lead-based paint is peeling, flaking, or chalking, contractors or workers shall follow state and federal standards for safe work practices to

minimize contamination when removing the paint.

5. Soil with low lead content may be covered with grass, other plantings, concrete, or asphalt. For soil with high lead content, removal and abatement are required.

Any action to abate existing lead hazards shall be taken only by contractors, inspectors, and workers certified by the California Department of Public Health in accordance with 17 CCR 35001-35099. (Education Code 32243)

The Superintendent or designee shall notify parent/guardians, teachers, and staff members if significant risk factors for lead exposure are found. (Education Code 32243)

Prevention of Mercury Exposure

The Superintendent or designee shall identify any mercury-containing products that are present in district facilities and, to the extent possible, shall replace them with mercury-free alternatives.

Staff shall receive information about proper procedures to follow in the event of a mercury spill. Clean-up instructions, a clearly labeled kit with necessary clean-up supplies, and a list of local resources shall be readily accessible.

In the event of a spill, staff shall evacuate all students from the immediate area of the spill, ensure that any clothing or other items with mercury on them remain in the room, open windows to the outside, and close doors to other parts of the school. Staff who are trained in proper clean-up procedures may carefully clean a small spill. As needed for larger or difficult-to-clean spills, the Superintendent or designee shall use an experienced professional referred by the local health department or environmental agency.

Any products containing mercury shall be properly disposed at an appropriate hazardous waste collection facility.

Asbestos Management

The Superintendent shall designate an employee who shall ensure that the district's responsibilities related to asbestos inspection and abatement are implemented in accordance with federal and state regulations. This employee shall receive adequate training to perform these duties, including, as necessary, training on the health effects of asbestos; detection, identification, and assessment of asbestos-containing building materials; options for controlling asbestos-containing building materials; asbestos management programs; and relevant federal and state regulations. (40 CFR 763.84)

The designated employee shall ensure that the district complies with the following requirements:

1. School facilities shall be inspected for asbestos-containing building materials as necessary in accordance with the following:
 - a. Any school building that is leased, acquired, or otherwise used by the district shall be inspected for asbestos-containing building materials prior to its use as a school building, unless exempted by federal regulations. (40 CFR 763.85, 763.99)
 - b. At least once every six months, the district shall conduct a periodic surveillance consisting of a visual inspection of each school building that contains or is assumed to contain asbestos-containing building materials. (40 CFR 763.92)
 - c. At least once every three years, the district shall conduct a re-inspection of all known or assumed asbestos-containing building materials in each school building. (40 CFR 763.85)
2. Based on the results of the inspection, an appropriate response which is sufficient to protect human health and the environment shall be determined from among the options specified in 40 CFR 763.90. The district may select the least burdensome response, taking into consideration local circumstances, including occupancy and use patterns within the school building and economic concerns such as short-term and long-term costs. (40 CFR 763.90)
3. An asbestos management plan for each school site shall be maintained and regularly updated to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, re-inspection, and response action

activities. (15 USC 2643; 40 CFR 763.93)

The asbestos management plan shall be available for inspection in district and school offices during normal business hours. Parent/guardian, teacher, and employee organizations shall be annually informed of the availability of these plans. (40 CFR 763.84, 763.93)

4. Staff, students, and parents/guardians shall be informed at least once each school year about any inspections, response actions, and post-response actions, including periodic re-inspection and surveillance activities, that are planned or in progress. (40 CFR 763.84)
5. Inspections, re-inspections, periodic surveillance, and response actions, including operations and maintenance, shall be conducted in compliance with state and federal regulations for the protection and safety of workers and all other individuals. (Education Code 49410.5; 40 CFR 763.84, 763.90)

Asbestos inspection and abatement work, preparation of a management plan, and any maintenance activities that may disturb asbestos-containing building materials, except for emergency repairs or small-scale, short-duration maintenance activities, shall be completed by state-certified asbestos inspectors or contractors. (15 USC 2646; 40 CFR 763.84, 763.85, 763.91)

6. All custodial and maintenance employees shall be properly trained in accordance with applicable federal and/or state regulations. (40 CFR 763.84)

All district maintenance and custodial staff who may work in a building that contains asbestos-containing building materials, regardless of whether they are required to work with such materials, shall receive at least two hours of related asbestos awareness training. New maintenance and custodial staff shall receive such training within 60 days after beginning employment. Any maintenance or custodial staff who conduct activities that will disturb asbestos-containing building materials shall receive 14 hours of additional training. The trainings shall address the topics specified in 40 CFR 763.92. (15 USC 2655; 40 CFR 763.84, 763.92)

7. Short-term workers, such as telephone repair workers, utility workers, or exterminators, who may come in contact with asbestos in a school shall be provided information regarding the locations of known or suspected asbestos-containing building materials. (40 CFR 763.84)
8. Warning labels shall be posted immediately adjacent to any known or suspected asbestos-containing building material located in routine maintenance areas in accordance with 40 CFR 763.95. (40 CFR 763.84)

The district shall maintain, in both the district and school offices and for a period of three years, records pertaining to each preventive measure and response action taken; staff training; periodic surveillances conducted; cleaning, operations, and maintenance activities; and any fiber release episode. (40 CFR 763.94)

Policy 3514.1: Hazardous Substances

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 05/01/2018

The Board of Trustees recognizes that potentially hazardous substances are used in the daily operations of our schools. The Superintendent or designee shall ensure these substances are inventoried, used, stored and regularly disposed of in a safe and legal manner.

Insofar as possible, the Superintendent or designee shall minimize the quantities of hazardous substances stored on school property and shall substitute less dangerous materials for hazardous substances.

Hazard Communication Program

The Superintendent or designee shall develop, implement and monitor a written hazard communication program in accordance with state law. Regulation 3514.2: Integrated Pest Management

Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2018

Definitions

Integrated pest management (IPM) means a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (Education Code 17609; Food and Agricultural Code 13181)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (Education Code 17609)

Program Components

The Superintendent or designee shall designate an employee at the district office and/or school site to develop, implement, and coordinate an IPM strategy that incorporates effective, least toxic pest management practices.

The district shall use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment. Such pesticides shall only be used after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. (Food and Agricultural Code 13181)

The IPM plan and this administrative regulation shall not apply to reduced-risk pesticides, including self-contained baits or traps, gels or pastes used for crack and crevice treatments, antimicrobials, and pesticides exempt from registration by law. (Education Code 17610.5; 3 CCR 6147)

The district's program shall include, but not necessarily be limited to, the following components:

1. Identifying and monitoring pest population levels and identifying practices that could affect pest populations. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.
2. Setting action threshold levels to determine when pest populations or vegetation at a specific location might cause unacceptable health or economic hazards that would indicate corrective action should be taken
3. Modifying or eliminating pest habitats to deter pest populations and minimize pest infestations.
4. Considering a full range of possible alternative cost-effective treatments. Such alternative treatments may include taking no action or controlling the pest by physical, horticultural, or biological methods. Cost or staffing considerations alone will not be adequate justification for the use of chemical control agents.
5. Selecting nonchemical pest management methods over chemical methods whenever such methods are effective in providing the desired control or, when it is determined that chemical methods must be used, giving preference to those chemicals that pose the least hazardous effects to people and the environment.

No pesticide that is prohibited by DPR or the U.S. Environmental Protection Agency, as listed on the DPR web site, shall be used at a school site. (Education Code 17610.1)

6. Limiting pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff. They shall be stored and disposed of in accordance with state regulations and product label directions.
7. Informing parents/guardians and employees regarding pesticide use as described in the sections "Notifications" and "Warning Signs" below.
8. Ensuring that persons applying pesticides follow label precautions and are sufficiently trained in the principles and practices of IPM as described in the section "Training" below.

9. Evaluating the effectiveness of treatments to determine if revisions to the IPM plan are needed.

Training

The IPM coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a DPR-approved training course on IPM and the safe use of pesticides in relation to the unique nature of school sites and children's health. (Education Code 17614; Food and Agricultural Code 13186.5)

Any district employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.

Notifications

Staff and parents/guardians of students enrolled at a school site shall be annually notified, in writing, regarding pesticide products expected to be applied at the school site in the upcoming year. The notification shall include at least the following: (Education Code 17612)

1. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it
2. The Internet address (<http://www.cdpr.ca.gov/schoolipm>) used to access information on pesticides and pesticide use reduction developed by the DPR pursuant to Food and Agricultural Code 13184
3. If the school has posted its IPM plan, the Internet address where the plan may be found
4. The opportunity to view a copy of the IPM plan in the school office
5. An opportunity for interested persons to register to receive prior notification of each application of a pesticide at the school site
6. Other information deemed necessary by the IPM coordinator

Whenever a person registers to receive notice of individual pesticide application pursuant to item #5 above, the IPM coordinator shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application. The notice shall include the product name, the active ingredient(s) in the product, and the intended date of application. (Education Code 17612)

If a pesticide product not included in the annual notification is subsequently intended for use at a school site, the IPM coordinator shall provide written notification of its intended use to staff and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (Education Code 17612)

If a school chooses to use a pesticide not exempted pursuant to Education Code 17610.5, it shall post the school or district IPM plan on the school's web site or, if the school does not have a web site, then on the district web site. If neither the school nor district has a web site, then the IPM plan shall be included with the annual notification sent to staff and parents/guardians pursuant to Education Code 17612 as described above. When not required, the IPM coordinator may post or distribute the IPM plan at his/her discretion. (Education Code 17611.5)

Whenever the IPM coordinator deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons at the school site, he/she shall make every effort to provide the required notifications prior to the application of the pesticide. (Education Code 17612)

Warning Signs

The IPM coordinator shall post a warning sign at each area of the school site where pesticides will be applied that shall be visible to all persons entering the treated area. The sign shall be posted at least 24 hours prior to the application and shall remain posted until 72 hours after the application. The warning sign shall prominently display the following information: (Education Code 17612)

1. The term "Warning/Pesticide Treated Area"

2. The product name, manufacturer's name, and the EPA's product registration number
3. Intended areas and dates of application
4. Reason for the pesticide application

When advance posting is not possible due to an emergency condition requiring immediate use of a pesticide to protect the health and safety of students, staff, or other persons or the school site, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (Education Code 17609, 17612)

Records

At the end of each calendar year, the IPM coordinator shall submit to DPR, on a form provided by DPR, a copy of the records of all pesticide use at the school site for that year, excluding any pesticides exempted by law and any pesticide use reported by the pest control operator pursuant to Food and Agricultural Code 13186. The IPM coordinator may submit more frequent reports at his/her discretion. (Education Code 17611)

Each school site shall maintain records of all pesticide use at the school for four years, and shall make the information available to the public, upon request, in accordance with the California Public Records Act. A school may meet this requirement by retaining a copy of the warning sign posted for each pesticide application with a recording on that copy of the amount of the pesticide used. (Education Code 17611)

Pesticide Use near School Site

Upon receiving notification pursuant to 3 CCR 6692 that a grower expects to use agricultural pesticides within one-quarter mile of a school site Monday through Friday from 6:00 a.m. to 6:00 p.m., the principal or designee shall notify the Superintendent or designee, IPM coordinator, staff at the school site, and parents/guardians of students enrolled at the school.

The principal or designee may communicate with any grower within one-quarter mile of the school to request that the grower not apply pesticides during evenings or weekends when school activities are scheduled.

Duties

SROs are duly sworn peace officers who are authorized to carry out their duties pursuant to state law.

Earthquake emergency procedures shall be aligned with the Standardized Emergency Management System and the National Incident Management System. (Government Code 8607; 19 CCR 2400-2450)

The Superintendent or designee may work with the California Governor's Office of Emergency Services and the Seismic Safety Commission to develop and establish the earthquake emergency procedures. (Education Code 32282)

Earthquake emergency procedures shall outline the roles and responsibilities of students and staff during and after an earthquake.

Earthquake emergency procedures shall include, but not be limited to, all of the following: (Education Code 32282)

1. A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staff
2. A DROP, COVER, AND HOLD ON procedure whereby each student and staff member takes cover under a table or desk, dropping to his/her knees, with the head protected by the arms and the back to the windows

DROP, COVER AND HOLD ON procedures shall be practiced at least once each school quarter in elementary schools and at least once each semester in secondary schools.

3. Protective measures to be taken before, during, and following an earthquake
4. A program to ensure that students and staff are aware of and properly trained in the earthquake emergency procedure system

Staff and students shall be informed of the dangers to expect in an earthquake and procedures to be followed. Students shall be instructed to remain silent and follow directions given by staff in such an emergency. Staff and students also shall be taught safety precautions to take if they are in the open or on the way to or from school when an earthquake occurs.

Earthquake emergency procedures shall designate primary and alternative locations outside of buildings, which may include areas off campus if necessary, where individuals on a school site will assemble following evacuation. In designating such areas, the Superintendent or designee shall consider potential post-earthquake hazards outside school buildings including, but not limited to, power lines, trees, covered walkways, chain link fences that may be an electric shock hazard, and areas near buildings that may have debris.

Earthquake emergency procedures also shall outline primary and alternative evacuation routes that avoid areas with potential hazards to the extent possible. The needs of students with disabilities shall be considered when planning evacuation routes.

The Superintendent or designee shall consider the danger of a post-earthquake tsunami when developing evacuation routes and locations, including the need to evacuate to higher ground.

The Superintendent or designee shall identify at least one individual within each building to determine if an evacuation is necessary, the best evacuation location, and the best route to that location when an earthquake occurs.

The Superintendent or designee shall identify potential earthquake hazards in classrooms and other district facilities, including, but not limited to, areas where the main gas supply or electric current enters the building, suspended ceilings, pendant light fixtures, large windows, stairwells, science laboratories, storage areas for hazardous materials, shop areas, and unsecured furniture and equipment. To the extent possible, dangers presented by such potential hazards shall be minimized by securing equipment and furnishings and removing heavy objects from high shelves.

Earthquake While Indoors at School

When an earthquake occurs, the following actions shall be taken inside buildings and classrooms:

1. Staff shall have students perform the drop procedure. Students should stay in the drop position until the emergency is over or until further instructions are given.
2. In laboratories, burners should be extinguished, if possible, before taking cover.
3. As soon as possible, staff shall move students away from windows, shelves, and heavy objects or furniture that may fall.
4. After the earthquake, the principal or designee shall determine whether planned evacuation routes and assembly locations are safe and shall communicate with teachers and other staff.
5. When directed by the principal or designee to evacuate, or if classrooms or other facilities present dangerous hazards that require immediate evacuation, staff shall account for all students under their supervision and shall evacuate the building in an orderly manner.

Earthquake While Outdoors on School Grounds

When an earthquake occurs, the following actions shall be taken by staff or other persons in authority who are outdoors on school grounds:

1. Staff shall direct students to walk away from buildings, trees, overhead power lines, power poles, or exposed wires.
2. Staff shall have students perform the procedure.
3. Staff shall have students stay in the open until the earthquake is over or until further directions are given.

Earthquake While on the Bus

If students are on the school bus when an earthquake occurs, the bus driver shall take proper precautions to ensure student safety, which may include pulling over to the side of the road or driving to a location away from outside hazards, if possible. Following the earthquake, the driver shall contact the Superintendent or designee for instructions before proceeding on the route or, if such contact is not possible, drive to an evacuation or assembly location.

Subsequent Emergency Procedures

After an earthquake episode has subsided, the following actions shall be taken:

1. Staff shall extinguish small fires if safe.
2. Staff shall provide first aid to any injured students, take roll, and report missing students to the principal or designee.
3. Staff and students shall refrain from lighting any stoves or burners or operating any electrical switches until the area is declared safe.
4. All buildings shall be inspected for water and gas leaks, electrical breakages, and large cracks or earth slippage affecting buildings.
5. The principal or designee shall post staff at safe distances from all building entrances and instruct staff and students to remain outside the buildings until they are declared safe.
6. The principal or designee shall request assistance as needed from the county or city civil defense office, fire and police departments, city and county building inspectors, and utility companies and shall confer with them regarding the advisability of closing the school.

7. The principal or designee shall contact the Superintendent or designee and request further instructions after assessing the earthquake damage.
 8. The Superintendent or designee shall provide updates to parents/guardians of district students and members of the community about the incident, any safety issues, and follow-up directions.

The Superintendent or designee shall provide IEP teams with information about district transportation services in order to assist them in making decisions as to the mode, schedule, and location of transportation services that may be available to each student with disabilities. The IEP team may communicate with district transportation staff and/or invite transportation staff to attend IEP team meetings where the student's transportation needs will be discussed.

Transportation services specified in a student's IEP or Section 504 plan shall be provided at no cost to the student or his/her parent/guardian.

In addition, meals may be sold to nonstudents, including parents/guardians, volunteers, students' siblings, or other individuals, who are on campus for a legitimate purpose. Any meals served to nonstudents shall not be subsidized by federal or state reimbursements, food service revenues, or U.S. Department of Agriculture (USDA) foods.

Meal prices, as recommended by the Superintendent or designee and approved by the Board, shall be based on the costs of providing food services and consistent with Education Code 38084 and 42 USC 1760. Students who are enrolled in the free or reduced-price meal program shall receive meals free of charge or at a reduced price in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall establish strategies and procedures for the collection of meal payments, including delinquent meal payments. Such procedures shall conform with BP/AR 3553 - Free and Reduced Price Meals, 2 CFR 200.426, and any applicable CDE guidance. The Superintendent or designee shall clearly communicate these procedures to students and parents/guardians, and shall make this policy and the accompanying administrative regulation available to the public pursuant to Education Code 49557.5.

The Superintendent or designee shall ensure that a student whose parent/guardian has unpaid school meal fees or a student who is enrolled in the free or reduced-price meal program is not overtly identified by the use of special tokens, tickets, or other means and is not shamed, treated differently, or denied a meal of the student's choice. (Education Code 49557, 49557.5)

Cafeteria Fund

The Superintendent or designee shall establish a cafeteria fund independent of the district's general fund.

The wages, salaries, and benefits of food service employees shall be paid from the district's general fund. (Education Code 38103)

The Superintendent or designee shall ensure that state and federal funds provided through school meal programs are allocated only for purposes related to the operation or improvement of food services and reasonable and necessary indirect program costs as allowed by law.

(42 USC 1760; 7 CFR 210.21)

A nondomestic food product may be purchased for use in the district's food service program only as a last resort when the product is not produced or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality, or when competitive bids reveal the costs of a United States product are significantly higher than the nondomestic product. In such cases, the Superintendent or designee shall retain documentation justifying the use of the exception.

Furthermore, the district shall accept a bid or price for an agricultural product grown in California before accepting a bid or price for an agricultural product grown outside the state, if the quality of the California-grown product is comparable and the bid or price does not exceed the lowest bid or price of a product produced outside the state. (Food and Agriculture Code 58595)

Bid solicitations and awards for purchases of equipment, materials, or supplies in support of the district's child nutrition program, or for contracts awarded pursuant to Public Contract Code 2000, shall be consistent with the federal procurement standards in 2 CFR 200.318-200.326. Status: DRAFT

Original Adopted Date: Pending | **Last Revised Date:** 03/01/2020

Payments for Meals

With the exception of students who are eligible to receive meals at no cost, students may pay on a per-meal basis or may submit payments in advance. The Superintendent or designee shall maintain a system for accurately recording payments received and tracking meals provided to each student.

At the beginning of the school year, and whenever a student enrolls during the school year, parents/guardians shall be notified of the district's meal payment policies and be encouraged to prepay for meals whenever possible. The Superintendent or designee shall communicate the district's meal payment policies through multiple methods, including, but not limited to:

3. Posting the policy on the district's website
4. Establishing a system to notify parents/guardians when a student's meal payment account has a low or negative balance

Any payments made to a student's food service account shall, if not used within the school year, be carried over into the next school year or refunded to the student's parents/guardians.

Unpaid and Delinquent Meal Charges

The district shall not direct any action toward a student to collect unpaid school meal fees. (Education Code 49557.5)

Students who have unpaid meal charges shall be served a meal of their choice throughout the school year regardless of the level of debt incurred by the household. Such students shall not be overtly identified by the use of special tokens, tickets, or other means and shall not be shamed, treated differently, or denied a meal of their choice. (Education Code 49557, 49557.5)

No later than 10 days after a student's school meal account has reached a negative balance, the Superintendent or designee shall so notify the student's parent/guardian. Before sending this notification, the district shall exhaust all options and methods to directly certify the student for free or reduced-price meals. If the district is not able to directly certify the student, the notice to the parent/guardian shall include a paper copy of, or an electronic link to, an application for free or reduced-price meals and the Superintendent or designee shall contact the parent/guardian to encourage submission of the application. (Education Code 49557.5)

The district may attempt to collect unpaid school meal fees from a parent/guardian, but shall not use a debt collector. (Education Code 49557.5)

The Superintendent or designee may enter into an agreement with a student's parent/guardian for payment of the student's unpaid meal charge balance over a period of time. As necessary, the repayment plan may allow the unrecovered or delinquent debt to carry over into the next fiscal year.

The district's efforts to collect debt shall be consistent with district policies and procedures, California Department of Education (CDE) guidance, and 2 CFR 200.426. The district shall not spend more than the actual debt owed in efforts to recover unpaid meal charges.

The Superintendent or designee shall maintain records of the efforts made to collect unpaid meal charges and, if applicable, financial documentation showing when the unpaid meal balance has become an operating loss.

Reimbursement Claims

The Superintendent or designee shall maintain records of the number of meals served each day by school site and by category of free, reduced-price, and full-price meals. The Superintendent or designee shall submit reimbursement claims for school meals to CDE using the online Child Nutrition Information and Payment System.

Donation of Leftover Food

To minimize waste and reduce food insecurity, the district may provide sharing tables where students and staff may return appropriate unused cafeteria food items to be made available to students during the course of a regular school meal time. If food on the sharing tables is not taken by a student, the school cafeteria may donate the food to a food bank or any other nonprofit charitable organization. (Health and Safety Code 114079)

Food that may be donated includes prepackaged, nonpotentially hazardous food with the packaging still intact and in good condition, whole uncut produce that complies with Health and Safety Code 113992, unopened bags of sliced fruit, unopened containers of milk that are immediately stored in a cooling bin maintained at 41 degrees Fahrenheit or below, and perishable prepackaged food if it is placed in a proper temperature-controlled environment. The preparation, safety, and donation of food shall be consistent with Health and Safety Code 113980. (Health and Safety Code 114079)

Cafeteria Fund

All proceeds from food sales and other services offered by the cafeteria shall be deposited in the cafeteria fund as provided by law. (Education Code 38090, 38093)

The cafeteria fund shall be used only for those expenditures authorized by the Board as necessary for the operation of school cafeterias in accordance with Education Code 38100-38103, 2 CFR Part 200 Appendix VII, and the California School Accounting Manual.

Any charges to, or transfers from, a food service program shall be dated and accompanied by a written explanation of the purpose of and basis for the expenditure. (Education Code 38101)

Indirect costs charged to the food service program shall be based on either the district's prior year indirect cost rate as approved by CDE or the statewide average approved indirect cost rate for the second prior fiscal year, whichever is less. (Education Code 38101)

Net cash resources in the nonprofit school food service shall not exceed three months' average expenditures. (7 CFR 210.14, 220.7)

U.S. Department of Agriculture Foods

The district shall provide facilities for the storage and control of foods received through the U.S. Department of Agriculture (USDA) that protect against theft, spoilage, damage, or other loss. Such storage facilities shall maintain donated foods in sanitary conditions, at the proper temperature and humidity, and with adequate air circulation. The district shall comply with all federal, state, or local requirements related to food safety and health and procedures for responding to a food recall, as applicable, and shall obtain all required health inspections. (7 CFR 250.14)

The Superintendent or designee shall maintain inventories of USDA foods in accordance with 7 CFR 250.59 and CDE procedures, and shall ensure that foods are used before their expiration dates.

USDA donated foods shall be used in school lunches as far as practicable. USDA foods also may be used in other nonprofit food service activities, including, but not limited to, school breakfasts or other meals, a la carte foods sold to students, meals served to adults directly involved in the operation and administration of the food service and to other school staff, and training in nutrition, health, food service, or general home economics instruction for students, provided that any revenues from such activities accrue to the district's nonprofit food service account. (7 CFR 250.59)
