COLLEGE ADMISSIONS

1. COMMUNITY COLLEGE REQUIREMENTS

www.cccco.edu

The following persons are eligible for admission:

1. High School graduates
2. Persons having attained their 18th birthday
3. Transfer students from other colleges upon presentation of satisfactory credentials

Counselors will assist qualified students in enrolling concurrently at Monterey Peninsula College in special academic and vocational programs, which are available to a limited number of students.

Monterey Peninsula College offers three kinds of programs of study:

1. Occupational Programs
2. Two-year Transfer Programs
3. Associate Degree Programs

2. **CALIFORNIA STATE UNIVERSITIES**
California State University System
Entrance Requirements
www.csummentor.edu

Admission to the state universities is dependent upon three factors:

1. High school grade point average in grades 10 and 11 in required courses listed below.
2. Scores on the American College Test or Scholastic Assessment Test
3. Fifteen courses will be taken during grades 9 - 12.
Students must earn a grade of "C" or higher in these courses.
The specific a-g course requirements are:
 - a. 1 year each of U.S. History and World History
 - b. 4 years English (all courses must require frequent and regular practice in writing expository prose composition)
 - c. 3 years of mathematics (Algebra I, Algebra 2 and Geometry) or (Integrated Math I, II and III.)
 - d. 2 years of laboratory science (1 year life science and 1 year physical science)
 - e. 2 years foreign language
 - f. 1 year visual/performing arts
 - g. 1 year college preparatory elective (1 course to be chosen from history, advanced mathematics, laboratory science, foreign languages and fine arts.)

Test scores are required unless you have a grade point average above 3.0 *and* are a resident of California. The CSU uses a calculation called a [eligibility index](#) that combines your high school grade point average with the score you earn on either the SAT or ACT tests. Even if you have a GPA above 3.0, it is useful to take either an SAT or ACT as the score may indicate if you do not need to take English and math placement tests after you are admitted and before you enroll at the CSU.

While SAT/ACT test scores are not required to establish the admission eligibility of California residents with high school grade point averages of 3.00 or above impacted campuses and impacted first-time freshmen enrollment categories often include test scores among the supplemental criteria required of all applicants to those campuses and enrollment categories.

Students earning a grade point average below 2.00 are not eligible for admission.

State universities currently require applicants to file their application during the months of October and November. Applications after the closing period are considered only on a space available basis.

MATHEMATICS

PGHS Math Progression Flow Chart

Online courses in place of PGHS mathematics courses at any level are generally discouraged. However, a student may, under special circumstances, earn up to a maximum of 10 credits for mathematics courses outside of the high school with faculty and counselor approval. Because PGHS math courses are integrated, Monterey Peninsula College (MPC) and online courses of traditional Algebra 1 and Geometry are not recognized as equivalent courses of Integrated Math I and Integrated Math II, respectively. Students should contact their counselors for specific guidance on the different courses that can be taken online or at MPC.

CAREER TECHNICAL EDUCATION (CTE) PATHWAYS

PGHS supports students earning CTE Certifications and Internships through Career Technical Education Pathways regardless if students plan to attend a 2-year college or 4-year university after high school. Most PGHS CTE courses have articulated units with Monterey Peninsula College (MPC); once 6 units are taken after enrollment at MPC, students may claim college credit for their articulated PGHS CTE courses. In addition, PGHS and MPC are negotiating for Dual Enrollment courses that will be offered as semester-long, college-level classes that will transfer units to a 4-year university. All students completing a two-year sequence of CTE courses will have the opportunity to earn industry certification and be recognized at graduation with a special cord. Those students continuing onto a third-year Capstone course will earn an internship with a local industry partner and will be recognized with a graduation stole.

Students may complete more than one CTE pathway.

Internships and Industry Certification are great topics to discuss on college apps!
